The little yellow hermit crab - Mark and Mel 2020-12-31

The little yellow hermit crab learns how to overcome a very difficult situation. Finding inspirations in the books she likes to read, she is able to create something useful and enjoyable to help other creatures' everyday life. This story was originally conceived by the authors for their beloved nieces and nephews, to help them understand the importance of wearing facial masks during the 2020 pandemic. "During the Covid-19 lockdown we missed our nieces and nephews a lot. To feel a bit closer to

them we wrote them this story. As the lockdowns are reduced, the need for personal safety and social courtesy are not. It is likely that all our lives will be forever changed and so we hope that you will all wear your face masks, pleated, twirled and fitted so well. They will keep you safe both inside and out and make you feel fancy when walking about. This story was originally for Robyn, Finley, Cameron, Isla and Emma but in a global pandemic we are reminded that we are all connected. We are individuals and we are one in seven billion. This is for you all. Stay safe. Much love, Mark and Mel". A clever story coming from the depths of the coral reef. Mark and Mel live in East Sussex, in the UK. They both enjoy diving and swimming in the ocean whenever they can. They also love building things together in their workshop and writing books, like this one.

October 16, 1943/Eight Jews - Giacomo Debenedetti 2020-11-15

For more than fifty years, Giacomo Debenedetti's October 16, 1943 has been considered one of the best and most accurate accounts of the shockingly brief and efficient roundup of more than one thousand Roman Jews from the oldest Jewish community in Europe for the gas chambers of Auschwitz. Completed a year after the event, Debenedetti's intimate

details and vivid glimpses into the lives of the victims are especially poignant because Debenedetti himself was there to witness the event, which forced him and his entire family into hiding. *Eight Jews*, the companion piece to *October 16, 1943*, was written in response to testimony about the Ardeatine Cave Massacres of March 24, 1944. In this essay, Debenedetti offers insights into that grisly horror and into assumptions about racial equality. Both of these stunning works are appearing together, along with Alberto Moravia's preface to Debenedetti's *October 16, 1943*, for the first time in an American translation. *October 16, 1943/Eight Jews* gives American readers a first glimpse into the extraordinary mind of the man who was Italy's foremost critic of twentieth-century literature. In addition to probing the deeper, haunting questions of the Holocaust, Debenedetti briefly describes the seizure of the Roman Jewish community's library of early manuscripts and incunables, the most valuable Jewish library in all of Italy. Following the roundup, this library was never seen again. Award-winning translator Estelle Gilson offers an additional essay on the history of the library and modern-day attempts to locate it. *October 16, 1943/Eight Jews* is a moving work that will continue to challenge readers long after they have closed its pages.

Without Ever Reaching the Summit - Paolo Cognetti 2020-11-05

An awestruck love letter to one of the most spectacular places on earth, from the author of international bestseller *The Eight Mountains*. Paolo Cognetti marked his 40th birthday with a journey he had always wanted to make: to Dolpo, a remote Himalayan region where Nepal meets Tibet. He took with him two friends, a notebook, mules and guides, and a well-worn copy of *The Snow Leopard*. Written in 1978, Matthiessen's classic was also turning forty, and Cognetti set out to walk in the footsteps of the great adventurer. *Without Ever Reaching the Summit* combines travel journal, secular pilgrimage, literary homage and sublime mountain writing in a short book for readers of Macfarlane, Rebanks and Cognetti's own bestseller, *The Eight Mountains*. An investigation into the author's physical limits, an ancient mountain culture, and the

magnificence of nature, it is an awestruck love letter to one of the most spectacular places on earth. 'A breath of fresh air for mountain-lovers currently in confinement...The sparse, graceful prose...reflects the barren landscape and the author's joy in paring back the distractions of modern life' Financial Times, Best Books of 2020

Five Equations That Changed the World - Michael Guillen 2012-06-05

A Publishers Weekly best book of 1995! Dr. Michael Guillen, known to millions as the science editor of ABC's Good Morning America, tells the fascinating stories behind five mathematical equations. As a regular contributor to daytime's most popular morning news show and an instructor at Harvard University, Dr. Michael Guillen has earned the respect of millions as a clear and entertaining guide to the exhilarating world of science and mathematics. Now Dr. Guillen unravels the equations that have led to the inventions and events that characterize the modern world, one of which -- Albert Einstein's famous energy equation, $E=mc^2$ -- enabled the creation of the nuclear bomb. Also revealed are the mathematical foundations for the moon landing, airplane travel, the electric generator -- and even life itself. Praised by Publishers Weekly as "a wholly accessible, beautifully written exploration of the potent mathematical imagination," and named a Best Nonfiction Book of 1995, the stories behind The Five Equations That Changed the World, as told by Dr. Guillen, are not only chronicles of science, but also gripping dramas of jealousy, fame, war, and discovery.

Theft from Delos - Mervyn Nel 2021-02-28

He thought of his wife and son. At this hour, they would be asleep, blissfully unaware of the ghastly events that were playing out on the Aegean. "We only have a small window of opportunity to get this job done before the night fishermen return to Mykonos and the morning fishermen go out. If they see us, they may become curious and ask what we are doing or worse still, inform the coast guard." Michael, an accounts executive from New York City, is devastated by the untimely death of his wife. His doctor recommends he takes a vacation. Michael travels to Greece, the ideal location to translate a nineteenth-century diary written by a French archaeologist, bought a few years prior at a

book market in Paris. Unbeknown to him, the Aegean islands have recently experienced a horrific crime. During the theft of five ancient statues from the sacred island of Delos, fourteen archaeologists were murdered. With the help of Althea, a beautiful Greek lady from the island of Mykonos, Michael begins to translate the diary, but there are others who also have an interest in it. As a consortium of international agents carries out their investigation into the stolen statues, Michael finds himself an innocent participant, not only in their enthralling investigation but also in a kidnapping. It is a world that is foreign to him; a world fraught with intrigue and deception. "In 1930 I was the Head Archaeologist on the sacred island of Delos". Fabien stopped reading and looked at the Host. "I'm afraid this was where my grandfather started crying and rambling but I wrote down what he said as best I could. Shall I continue reading?" "Yes, do go on." "We hid the treasure. Looking back, I know that what we did was wrong. Please tell the Greek authorities about the treasure and ask her citizens to forgive a greedy and dying old man." Mervyn Nel graduated from the University of Johannesburg with a National Diploma in Personnel Management and Industrial Psychology. He has written multiple articles which have been published in mainstream magazines. After a long and fulfilling career as a Credit Evaluation Manager in a leading financial services organisation, he left the corporate world to pursue his passion for writing. He is currently working on his latest novel, The Postojna Manuscript. The backdrops to his novels are inspired by his travels across the globe. When he is not writing, he can be found pottering around in his garden in Weltevredenpark, South Africa.

The Quotable Feynman - Richard P. Feynman 2015-09-29

A treasure-trove of illuminating and entertaining quotations from beloved physicist Richard P. Feynman "Some people say, 'How can you live without knowing?' I do not know what they mean. I always live without knowing. That is easy. How you get to know is what I want to know."—Richard P. Feynman Nobel Prize-winning physicist Richard P. Feynman (1918-88) was that rarest of creatures—a towering scientific genius who could make himself understood by anyone and who became

as famous for the wit and wisdom of his popular lectures and writings as for his fundamental contributions to science. The Quotable Feynman is a treasure-trove of this revered and beloved scientist's most profound, provocative, humorous, and memorable quotations on a wide range of subjects. Carefully selected by Richard Feynman's daughter, Michelle Feynman, from his spoken and written legacy, including interviews, lectures, letters, articles, and books, the quotations are arranged under two dozen topics—from art, childhood, discovery, family, imagination, and humor to mathematics, politics, science, religion, and uncertainty. These brief passages—about 500 in all—vividly demonstrate Feynman's astonishing yet playful intelligence, and his almost constitutional inability to be anything other than unconventional, engaging, and inspiring. The result is a unique, illuminating, and enjoyable portrait of Feynman's life and thought that will be cherished by his fans at the same time that it provides an ideal introduction to Feynman for readers new to this intriguing and important thinker. The book features a foreword in which physicist Brian Cox pays tribute to Feynman and describes how his words reveal his particular genius, a piece in which cellist Yo-Yo Ma shares his memories of Feynman and reflects on his enduring appeal, and a personal preface by Michelle Feynman. It also includes some previously unpublished quotations, a chronology of Richard Feynman's life, some twenty photos of Feynman, and a section of memorable quotations about Feynman from other notable figures. Features: Approximately 500 quotations, some of them previously unpublished, arranged by topic A foreword by Brian Cox, reflections by Yo-Yo Ma, and a preface by Michelle Feynman A chronology of Feynman's life Some twenty photos of Feynman A section of quotations about Feynman from other notable figures Some notable quotations of Richard P. Feynman: "The thing that doesn't fit is the most interesting." "Thinking is nothing but talking to yourself inside." "It is wonderful if you can find something you love to do in your youth which is big enough to sustain your interest through all your adult life. Because, whatever it is, if you do it well enough (and you will, if you truly love it), people will pay you to do what you want to do anyway." "I'd hate to die twice. It's so boring."

Making an Entrance - Adam Benjamin 2013-10-18

Making an Entrance is the first ever practical introduction to teaching dance with disabled and non disabled students. This clearly written, thought provoking and hugely enjoyable manual is essential reading whether you're just starting out or are already active in the field. Taking improvisation as his focus and as the starting point of choreographic exploration, Adam Benjamin asks what it has to offer as an art form and how it can be better used to meet the changing needs of dance education. In the theoretical section Benjamin explores the history of a disintegrated dance practice, placing it within the wider context of cultural and political movements. He questions what is meant today when we talk about 'inclusive' or 'integrated dance' and what we might expect of it. The book includes over 50 exercises and improvisations designed to stimulate and challenge students at all levels of dance. Benjamin also includes useful hints on the practicalities of setting up workshops covering issues as diverse as class size, the safety aspects of wheelchairs and the accessibility of dance spaces.

Futourism - Armando Peres 2019-02-21T00:00:00+01:00

How will the tourists of the future travel? Where will they like to stay? What experiences will they look for? Tourism is one of the strongest and fastest growing sectors of the world economy and has become one of the most advanced frontiers for technological innovation applied to transport and entertainment. The book provides a simple illustration of how tourism has evolved in recent decades and the great economic, social and cultural transformations it has undergone. These transformations, which also affect the consumption patterns of tourists, pose important challenges in terms of innovation for countries and regions that are trying to emerge in an increasingly crowded market, and make us question how people will travel in the near future. They also show us what a very interesting sector tourism actually is, and how it is an important field of experimentation, in both technological and other ways, for new products and experiences that are integral parts of daily life today.

Imperio de Kovan - Daniel Igual Merlo 2020-12-31

El emperador Mastuh ha muerto y deja un extenso imperio a su hija, Hansa. Esta es tan solo una niña y desde hace más de dos siglos no ha reinado una mujer en el imperio de Kovan. Al producirse la muerte del emperador, su hermano, Jonrrak, regresa de las conquistadas tierras de Cirimeria con la Legión Extranjera y da un golpe de estado en el imperio para derrocar a su sobrina y hacerse con el trono imperial. Un grupo de guardias logra salvar a la princesa y huir de la capital, Ciudad Baluarte. Sin embargo, la lucha se extiende por todo el imperio entre los partidarios de la princesa Hansa y los partidarios de Jonrrak. Las

sacerdotisas del imperio, las célebres Korais, únicas capaces de utilizar magia en el imperio, también se posicionan a favor de uno u otro bando. El conflicto por el dominio de Kovan está servido. Es una lucha por el control de territorios y de ideologías. Sin embargo, también desde las fronteras exteriores del imperio acechan enemigos poderosos, dispuestos a destrozarse al imperio. Daniel Igual Merlo. Nacido en Móstoles (Madrid) en 1987, es licenciado en Historia y Periodismo. Desde muy temprana edad su afición por la novela fantástica le llevó a escribir relatos de este género. Siempre busca en sus aventuras el nexo entre fantasía épica y el protagonismo colectivo de varios personajes cuyas historias se entrelazan en la trama principal. En ocasiones, sus relatos tienen un paralelismo con acontecimientos históricos. Tras su primera saga "Las aventuras de Alan Braw", ahora en "Imperio de Kovan" nos muestra una historia épica en la que dos contendientes luchan por alcanzar el poder de un territorio existiendo en ambos bandos personajes inolvidables, tanto hombres como mujeres, que protagonizan toda la trama.

Nuclear War and Environmental Catastrophe - Noam Chomsky
2013-04-30

"There are two problems for our species' survival—nuclear war and environmental catastrophe," says Noam Chomsky in this new book on the two existential threats of our time and their points of intersection since World War II. While a nuclear strike would require action, environmental catastrophe is partially defined by willful inaction in response to human-induced climate change. Denial of the facts is only half the equation. Other contributing factors include extreme techniques for the extraction of remaining carbon deposits, the elimination of agricultural land for bio-fuel, the construction of dams, and the destruction of forests that are crucial for carbon sequestration. On the subject of current nuclear tensions, Chomsky revisits the long-established option of a nuclear-weapon-free zone (NWFZ) in the Middle East, a proposal set in motion through a joint Egyptian Iranian General Assembly resolution in 1974. Intended as a warning, Nuclear War and Environmental Catastrophe is also a reminder that talking about the unspeakable can still be done with humor, with wit and indomitable

spirit.

"By my Spirit" - Jonathan Goforth 101-01-01

Dr. A.T. Schofield says: "One thing to be borne in mind is that since the days of Pentecost there is no record of the sudden and direct work of the Spirit of God upon the souls of men that has not been accompanied by events more or less abnormal. It is, indeed, on consideration, only natural that it should be so. We cannot expect an abnormal inrush of Divine light and power, so profoundly affecting the emotions and changing the lives of men, without remarkable results. As well expect a hurricane, an earthquake, or a flood, to leave nothing abnormal in its course, as to expect a true Revival that is not accompanied by events quite out of our ordinary experience."

A Cat Called Alfie - Rachel Wells 2020-02-04

1848 - Mike Rapport 2009-02-03

In 1848, a violent storm of revolutions ripped through Europe. The torrent all but swept away the conservative order that had kept peace on the continent since Napoleon's defeat at Waterloo in 1815—but which in many countries had also suppressed dreams of national freedom. Political events so dramatic had not been seen in Europe since the French Revolution, and they would not be witnessed again until 1989,

with the revolutions in Eastern and Central Europe. In 1848, historian Mike Rapport examines the roots of the ferment and then, with breathtaking pace, chronicles the explosive spread of violence across Europe. A vivid narrative of a complex chain of interconnected revolutions, 1848 tells the exhilarating story of Europe's violent "Spring of Nations" and traces its reverberations to the present day.

The Druggist of Auschwitz - Dieter Schlesak 2011-04-26

Dieter Schlesak's haunting novel *The Druggist of Auschwitz*—beautifully translated from the German by John Hargraves—is a frighteningly vivid portrayal of the Holocaust as seen through the eyes of criminal and victim alike. Adam, known as "the last Jew of Schäßburg," recounts with disturbing clarity his imprisonment at the infamous Auschwitz concentration camp. Through Adam's fictional narrative and excerpts of actual testimony from the Frankfurt Auschwitz Trial of 1963–65, we come to learn of the true-life story of Dr. Victor Capesius, who, despite strong friendships with Jews before the war, quickly aided in and profited from their tragedy once the Nazis came to power. Interspersed with historical research and the author's face-to-face interviews with survivors, the novel follows Capesius from his assignment as the "sorter" of new arrivals at Auschwitz—deciding who will go directly to the gas

chamber and who will be used for labor—through his life of lavish wealth after the war to his arrest and eventual trial. Schlesak's seamless incorporation of factual data and testimony—woven into Adam's dreamlike remembrance of a world turned upside down—makes *The Druggist of Auschwitz* a vital and unique addition to our understanding of the Holocaust.

Who Will Rescue Finance? - Emilio Barucci 2019

The main idea of this book is that the root cause of the financial crisis is the ambition to handle risk as a well-defined commodity that can be traded in the market. The book provides an interpretation of the crisis going beyond simple reconstructions. Finance cannot be rescued by simply referring to ethics or limiting the remuneration of managers. This book is unique in that it covers both the American and the European crisis.
