He would get his way, too, if not for the efforts of an unlikely savior and her equally unlikely friends! Wind Dancing - Deborah Ellen Schneider 2009

Editorial Reviews“Deborah Schneider has lived through a nightmare that most of us can't even imagine. She opens herself up and invites us in—an

act that requires great courage under even the best of circumstances. Her experience of kindness, compassion and grace in the midst of darkness is an inspiring testament to our shared humanity. Hearing of the struggles she continues to deal with on a daily basis, one can only stand back and admire her commitment to living a full and productive life.”--Penny Marshall, Actress and Producer“With grace and dignity...Deb reclaims her life after a serious brain injury. Her humor and direct speaking provide insight and inspiration...Truly, the sky is the limit!”--Judith Avner, Executive Director, Brain Injury Association of New York State (BIANYS)“Deborah exemplifies the process of spiritual transformation. Even at her lowest emotional and physical points, the author acknowledges love, patience, care, and perhaps above all an abiding sense of grace to see her through the darkness and into a dynamic experience of light and wholeness...Her story is a powerful testament to the

possibility of finding hope and healing, even in the midst of trial and danger, and will surely inspire all who have ever walked in the valley of despair to dream about dancing.”--John Cecero, Associate Professor of Psychology, Fordham University“Wind Dancing “is unique in that it gives the reader a rare opportunity to understand the effects and impact of traumatic injuries from the inside out rather than from the outside in. With grace, dignity and an unbending openness and honesty, Deborah shares with the reader her ongoing journey of healing and recovery from the depths of despair, confusion, fear and pain...the author's story highlights the importance of an integrative mind-body approach to healing...the crisis that initially disrupted her entire life ultimately became an opportunity for tremendous personal growth.”--Leslie Nadler, Adjunct Professor of Psychology, CW Post College“Wind Dancing takes the reader on a poignant and

spiritual journey...[Deborah's] courage, resilience and ultimate transformation are an inspiration, and a wonderful reminder of the power of the human spirit to not only survive but triumph over trauma and adversity."--

Product Description
Survival.

Hope. Renewal. These three simple words sum up Deborah Ellen Schneider's life. In this memoir of tragedy and triumph, she teaches people suffering from disability, depression and abuse how to reclaim their lives and learn the joyful art of Wind Dancing. Deborah was a senior manager at the second-largest bank in the world. Then in 1995, the driver of a two-ton New York utility truck smashed into her station wagon at 50 mph. Her head whipped back against the seat so violently that the headrest broke. The traumatic brain injury she suffered reduced her mental abilities to that of a five-year-old child.

Years of chronic pain,

debilitating dizziness and therapy followed. Simple tasks took monumental effort. The smallest things, like pulling her hair back into a ponytail, were impossible. As her marriage dissolved and her sons became her caregivers, she was trapped in a perpetual nightmare of post-traumatic stress and haunting childhood memories. A rehab facility called Transitions and a host of neighbors, friends and strangers formed a lifeline to hope. With their help, Deborah fought to regain her independence. As she leaned on her faith and her long experience as a survivor, she began an amazing spiritual transformation. She could never be the person she was before the accident. Instead she built a new life that allowed her to dance in the breeze called joy. As she emerged into a miraculous new life, Deborah knew she had to help others. She began advocating for people with a host of disabilities and now speaks for those who cannot speak for themselves. She is

Luminous Darkness -

Deborah Eden Tull 2022-09-27

A resonant call to explore the darkness in life, in nature, and in consciousness—including difficult emotions like uncertainty, grief, fear, and xenophobia—through teachings, embodied meditations, and mindful inquiry that provide us with a powerful path to healing. Darkness is deeply misunderstood in today's world; yet it offers powerful medicine, serenity, strength, healing, and regeneration. All insight, vision, creativity, and revelation arise from darkness. It is through learning to stay present and meet the dark with curiosity rather than judgment that we connect to an unwavering light within. Welcoming darkness with curiosity, rather than fear or judgment, enables us to access our innate capacity for compassion and collective healing. Dharma teacher, shamanic practitioner, and deep ecologist Deborah Eden

Tull addresses the spiritual, ecological, psychological, and interpersonal ramifications of our bias towards light. Tull explores the medicine of darkness for personal and collective healing, through topics such as: Befriending the Night: The Radiant Teachings of Darkness Honoring Our Pain for Our World Seeing in the Dark: The Quiet Power of Receptivity Dreams, Possibility, and Moral Imagination Releasing Fear—Embracing Emergence Tull shows us how the labeling of darkness as “negative” becomes a collective excuse to justify avoiding everything that makes us uncomfortable: racism, spiritual bypass, environmental destruction. We can only find the radical path to wholeness by learning to embrace the interplay of both darkness and light.

The Promise of Hope -

Edward Grinnan 2011

Edward Grinnan has spent years listening to people's stories—the core of Guideposts magazine. In the often remarkable stories of people

going through tough times, hoping to overcome difficult odds, or looking to make a difference in the world, Grinnan has discovered that personal change is vital to achieving success. In each chapter, Grinnan weaves the tales of other people with his own dramatic story to reveal how you can learn about the keys to powerful personal change: honesty, willingness, imagination, commitment, faith, forgiveness, acceptance, resilience, and love. He shows these principles at work in his never-before-told, revealing, personal struggle with alcoholism, and how he's learned through his own missteps to accept change to become the person he was meant to be. It is in the telling of stories that one can find inspiration and positive approach to daily living. By listening to real-life experience, you can change and grow. In hearing Grinnan tell his story as well as others, readers will be invited to share their own and consider how these nine keys can make a real

difference.

Choose Your Energy: Change Your Life! - Deborah Jane Wells 2013-05-31

When love transforms your relationship with yourself, it transforms your personal life, your work, and the world. When your birth includes a near-death experience, you know you are in for a wild ride. A fifty-five-year roller coaster of triumph and burnout led to finding my life purpose more than five decades later. Mine is a story of hope. Yours can be

too. As a board-certified empowerment coach, organization transformation consultant, Reiki master teacher, artist, author, and broadcast personality, I have pursued a lifelong passion for the transformative power of love. I help individuals and organizations learn to harness that power to step into their greatness. When we choose fear as our fuel, any of us individuals and organizations alike can become stuck in the hamster wheel approach to life. Trapped by the mistaken belief that busyness is the same as purpose, we can't stand the way we were living but feel powerless to change. As we work together, my clients discover what I discovered: when you fall in love with yourself, everything else falls into place, personally and professionally. Choosing love as your core energy automatically enhances every aspect of your life: your perceptions, opportunities, relationships, and priorities. You get unstuck, reclaim your personal power, and recapture your zest for living, moving

yourself forward into a life you love. Instead of choosing to live as a victim of circumstance, consider embracing the power of loving yourself unconditionally through insights, encouragement, clear strategies, and practical tools built on my personal journey, including a sustained eighty-pound weight loss, freedom from a ten-year bout of debilitating depression, and finding my purpose sharing hope, possibilities, and empowerment with the world; living in flow, a fluid journey to wholeness grounded in who you are being not what you are doing; the Discovery Framework that grew out of my experience, including core energy, sensory balance, and your personal board of directors; and Lessons in Living inspired by the journeys of my clients.

Deborah's Daughters - Joy A. Schroeder 2014-02-28

Joy A. Schroeder offers the first in-depth exploration of the biblical story of Deborah, an authoritative judge, prophet, and war leader. For centuries,

Deborah's story has challenged readers' traditional assumptions about the place of women in society. Schroeder shows how Deborah's story has fueled gender debates throughout history. An examination of the prophetess's journey through nearly two thousand years of Jewish and Christian interpretation reveals how the biblical account of Deborah was deployed against women, for women, and by women who aspired to leadership roles in religious communities and society. Numerous women-and men who supported women's aspirations to leadership-used Deborah's narrative to justify female claims to political and religious authority. Opponents to women's public leadership endeavored to define Deborah's role as "private" or argued that she was a divinely authorized exception, not to be emulated by future generations of women. Deborah's Daughters provides crucial new insight into the history of women in Judaism and Christianity, and into women's

past and present roles in the church, synagogue, and society.

Caregiving - Sharon

Wegscheider-Cruse 2019-05-21

After a life-threatening accident stopped her completely in her tracks a few years ago, author Sharon Wegscheider-Cruse and her family came to truly understand that we are all one event from a lifestyle change. Former First Lady Rosalyn Carter clearly illustrated the importance of this when she said: "There are only four kinds of people in this world: those who have been caregivers; those who currently are caregivers; those who will be caregivers; and those who will need caregivers." While some people choose to take care of loved ones after they can no longer take care of themselves, many others must do so for a myriad of other reasons, often financial. It can be a crisis situation, such as an accident, or the long-term effects of aging. In any case, the days are often long and draining, both for the family caregiver and the

paid professional, and the choices to be made are often confusing, difficult, and daunting. In this illuminating book filled with practical, easily implementable advice, Wegscheider-Cruse helps readers sort through the puzzle that forms the caregiving world. Chapter topics include: identifying the roles of caregivers; how to deal with burnout; finding ways to compartmentalize and separate without guilt; using technology to make life easier; building bridges through teamwork; downsizing; and navigating end-of-life issues. Most importantly, the book offers readers a deep toolkit of invaluable suggestions for navigating tough issues with positivity and optimism. It is also the first book to provide stories from the perspective of not just the caregiver, but the caree, thus enabling caregivers to better understand their fears and feelings. The result is a positive, unified approach to care.

It shows how listening to

patient and family narratives can help us to understand how they make sense of what has happened to them, and also help professionals better understand and engage with them in practice. The book will also be useful for considering narratives associated with brain injuries from other causes, for example traumatic brain injury. *Life After Encephalitis* will appeal to a wide range of professionals working in rehabilitation settings, and also to and survivors of encephalitis, their families, and carers.

Letting Go: How Less Becomes More - Deborah Cole 2019-10

What might move a focused, "git 'er done" person of a certain age to chuck it all for a flighty, creative lifestyle? What impetus would cause this same predictable woman to decide to change her ways? Could this be

the time in life when there should be a family intervention, car keys taken away, and financial responsibilities removed? You know. One of THOSE situations? It was a possibility. That newly irrational, formerly logical woman was me and is me. I am a person who is in transition, simply in the process of becoming something new and different, a metamorphosis of sorts. Or at least that is how I have justified it to myself. Everything in my life...the good, the bad and the very messy (and there has been plenty of that) has led me to this moment. Every person, every incident, every trauma that caused pain, chronic anxiety or even incredible joy are simply threads of a life tapestry which have woven themselves into a current pattern that is so amazing that words cannot express nor a container begin to hold the happiness which is now mine. As Skin Horse shares, this becoming takes a long time and doesn't happen all at once. And oh yes, the outcomes are

possibly quite spectacular beyond one's wildest dreams. But there are speed bumps and roadblocks along the way which are all there for a purpose. From these bumps come bruises which are painful but healing. From the roadblocks come stall outs which may be frustrating but yield results creating some amazing life changes.

In Good Faith - Scott A. Shay
2018-09-04

Prominent atheists claim the Bible is a racist text. Yet Dr. Martin Luther King Jr. read it daily. Then again, so did many ardent segregationists. Some atheists claim religion serves to oppress the masses. Yet the classic text of the French Revolution, *What is the Third Estate?*, was written by a priest. On the other hand, the

revolutionaries ended up banning religion. What do we make of religion's confusing role in history? And what of religion's relationship to science? Some scientists claim that we have no free will.

Others argue that advances in neurobiology and physics disprove determinism. As for whispering to the universe, an absurd habit say the skeptics. Yet prayer is a transformative practice for millions. This book explores the most common atheist critiques of the Bible and religion, incorporating Jewish, Christian, and Muslim voices. The result is a fresh, modern re-evaluation of religion and of atheism. Scott A. Shay is a Co-Founder and Chairman of Signature Bank and a longstanding Jewish community activist. Shay started a Hebrew school, an adult educational program, and chaired several Jewish educational programs. He is the author of *Getting our Groove Back: How to Energize American Jewry* and has been thinking about religion, reason, and modernity since wondering

why his parents sent him to Hebrew school.

Peace at Last - Deborah Grassman 2009-01-01

For her two-plus decades as a hospice nurse at the Department of Veterans Affairs, Deborah Grassman has often heard the comment, Isn't your work depressing? Like many others, she had begun her hospice career with that same prejudice. She feared death itself, and because of that fear, she was unaware that she could find peace, joy, and fulfillment in caring for people at the end of their lives. She had no special training in caring for veterans, and she had no reason to think that veterans needs were any different from nonveterans. With time and experience, however, she began to realize that these veterans had experiences and training that made them different from other hospice patients. Likewise she

began to understand that she could learn lessons about peace from people who were trained for war; that warriors often have wisdom that, paradoxically, shows us how to live in peace with each other and within ourselves. In *Peace at Last*, Deborah Grassman takes the reader on a journey of understanding and growth. While caring for thousands of veterans in a hospice setting over a 25-year career in a VA hospital, she gathered the

veterans stories of pain and redemption, personal awakening, and peace. Then she crafted these stories into an unforgettable book. Designed to help caregivers, family members, and veterans themselves understand the impact of war and military culture on lives and emotions, *Peace at Last* contains veterans stories, hospice experiences, and a series of appendices providing sample materials that can assist with healing.
