Families, Families, Families! - Suzanne Lang

2015-03-24

No matter your size, shape, or pedigree—if you love each other, you are a family! Moms, dads, sisters, brothers — and even Great Aunt Sue — appear in dozens of combinations, demonstrating all kinds of nontraditional families! Silly animals are cleverly depicted in framed portraits, and offer a warm celebration of family love. From School Library Journal PreS-Gr 1—Imagine a house with many rooms, whose walls each have a different color or wallpaper, accenting a family portrait hanging there. On a rustic wooden wall hangs the first portrait—a large family of ducks posing beside a still pond. The next spread shows three pandas in pink vests, much like the pink oriental wallpaper behind them. Each portrait features a gently rhyming line: "Some children live with their grandparents.../and some live with an aunt./Some children have many pets.../and some just have a plant." All of these appealing images demonstrate different ways of being a family. "Some children live with their father./ Some children have two mothers./Some children are adopted./Some have stepsisters and—brothers." The cartoon-style critters contrast pleasantly with more realistic elements—a bamboo plant, a slender ceramic dog, a fat ceramic cat. Families of hippos, tigers, lions, ostriches, and whales join the other family groups in the final spread. The loud-and-clear message is that "if you love each other, then you are a family." And imagine the many children who will be reassured because they have found a portrait of a family they will recognize as their own. A solid choice for most libraries.—Mary Jean Smith, formerly at Southside Elementary School, Lebanon, TN

All Families Are Different - Sol Gordon

2010-06-28

Gordon writes in a simple, straightforward, and helpful manner. Children relate to this approach well.-RedbookGordon is an exceptional guide.-Parenting MagazineIs there such a thing as a normal family? Is one family better than another? Of course the answer to these questions is no, but children are often led to believe otherwise. Young people need to understand and appreciate that when it comes to families, they are all different!One of the world's most influential and loved authors of educational children's books, Dr. Sol Gordon has created an uplifting book for young people age four and older who are curious about just what it means to be part of a family. Some children, he explains, live with both parents, while others live with one or with step- or foster parents.

Nowadays, we also find children being reared by aunts, uncles, or grandparents, as well as same-sex couples. The variety of possibilities is rich in its diversity. Separations, divorce, abuse, neglect, and sibling rivalries are an unfortunate part of life, but, Gordon emphasizes, they are not the child's fault.While the many illustrations show a variety of family situations to stimulate awareness and acceptance, the text places importance on children knowing they are loved by their family members-whomever they may be-and that no one's family is perfect. But children can play a very special and important role in making their home a happier one: It's up to you to be the best person you can be and doing well in school will help you to be a better adult, or parent, when you grow up, Gordon says.Sol Gordon, Ph.D., a clinical psychologist with a special interest in children's education, is the author of *Did the Sun Shine Before You Were Born?*; *Girls Are Girls*, and *Boys Are Boys*; *A Better Safe Than Sorry Book*, and many other books for children and adults. The Great Big Book of Families - Mary Hoffman
2015-03-05

What is a family? Once, it was said to be a father, mother, boy, girl, cat and dog living in a house with a garden. But as times have changed, families have changed too, and now there are almost as many kinds of families as colours of the rainbow - from a mum and dad or single parent to two mums or two dads, from a mixed-race family to children with different mums and dads, to families with a disabled member. Mary Hoffman takes a look through children's eyes at the wide varieties of family life: from homes, food, ways of celebrating, schools and holidays to getting around, jobs and housework, from extended families, languages and hobbies to pets and family trees - and she concludes that, for most people, their own family is the best one of all! With Ros Asquith's delightful pictures, this book takes a fresh, optimistic look at families of today.

All Families are Psychotic - Douglas Coupland
2010-01-08

Psychosis: any form of severe mental disorder in which the individual's contact with reality becomes highly distorted. Douglas Coupland, the author whom Tom Wolfe calls "one of the freshest, most exciting voices of the novel today," delivers his tenth book in ten years of writing, with *All Families Are Psychotic*. Coupland recently has been compared to Jack Kerouac and F. Scott Fitzgerald, yet he is a man firmly grounded in the current era. The novel is a sizzling and sharp-witted entertainment that resounds with eternal human yearnings. In the opening pages, 65-year-old Janet Drummond checks the clock in her cheap motel room near Cape Canaveral, takes her prescription pills and does a rapid tally of the whereabouts of her three children: Wade, the eldest, in and out of jail and still radiating "the glint"; suicidal Bryan, whose girlfriend, the vowel-free Shw, is pregnant; and Sarah, the family's shining light, an astronaut preparing to be launched into space as the star of a shuttle mission. They will all arrive in Orlando today - along with Janet's ex-husband Ted and his new trophy wife - setting the stage for the most disastrous family reunion in the history of fiction. Florida may never recover from their version of fun in the sun. The last time the family got together, there was gunplay and an ensuing series of HIV infections. Now, what should be a celebration turns instead into a series of mishaps and

complications that place the family members in constant peril. When the reformed Wade attempts to help his dad out of a financial jam and pay off his own bills at the fertility clinic, his plan spins quickly out of control. Adultery, hostage-taking, a letter purloined from Princess Diana's coffin, heart attacks at Disney World, bankruptcy, addiction and black-market negotiations - Coupland piles on one deft, comic plot twist after another, leaving you reaching for your seat belt. When the crash comes, it is surprisingly sweet. Janet contemplates her family, and where it all went wrong. "People are pretty forgiving when it comes to other people's family. The only family that ever horrifies you is your own." During the writing, Coupland described the book as being about "the horrible things that families do to each other and how it makes them strong." He commented: "Families who are really good to each other, I've noticed, tend to dissipate, so I wonder how awful a family would have to be to stick together." Coupland's first novel, *Generation X: Tales for an Accelerated Culture*, became a cultural phenomenon, affixing a buzzword and a vocabulary to a generation and going on to sell over a million copies. The novels that followed were all bestsellers, and his work has continued to show a fascination with the digital, brand-conscious, media-dense culture of contemporary North American society, leading some to peg him as "an up-to-the-minute cultural reference engine." Meanwhile, his deeper interests in how human beings function in this spiritual vacuum have become increasingly apparent. For example, the character Wade contemplates his father: "What would the world have to offer Ted Drummond, and the men like him, a man whose usefulness to the culture had vanished somewhere around the time of Windows 95? Golf? Gold? Twenty-four hour stock readouts?" Janet, on the other hand, nears a kind of peace with life: "Time erases both the best and the worst of us." *All Families Are Psychotic* shows Coupland being just as concerned for the grown-ups as for the kids.

One Hundred Years of Solitude - Gabriel Garcia Marquez 2003-06-24

One of the 20th century's enduring works, *One Hundred Years of Solitude* is a widely beloved and acclaimed novel known throughout the world, and the ultimate achievement in a Nobel Prize-winning career. The novel tells the story of the rise and fall of the mythical town of Macondo through the history of the Buendía family. It is a rich and brilliant chronicle of life and death, and the tragicomedy of humankind. In the noble, ridiculous, beautiful, and tawdry story of the Buendía family, one sees all of humanity, just as in the history, myths, growth, and decay of Macondo, one sees all of Latin America. Love and lust, war and revolution, riches and poverty, youth and senility -- the variety of life, the endlessness of death, the search for peace and truth -- these universal themes dominate the novel. Whether he is describing an affair of passion or the voracity of capitalism and the corruption of government, Gabriel García Márquez always writes with the simplicity, ease, and purity that are the mark of a master. Alternately reverential and comical, *One Hundred Years of Solitude* weaves the political, personal, and spiritual to bring a new consciousness to storytelling. Translated into

dozens of languages, this stunning work is no less than an accounting of the history of the human race.

Same Family, Different Colors - Lori L. Tharps
2017-10-03

Weaving together personal stories, history, and analysis, *Same Family, Different Colors* explores the myriad ways skin-color politics affect family dynamics in the United States. Colorism and color bias—the preference for or presumed superiority of people based on the color of their skin—is a pervasive and damaging but rarely openly discussed phenomenon. In this unprecedented book, Lori L. Tharps explores the issue in African American, Latino, Asian American, and mixed-race families and communities by weaving together personal stories, history, and analysis. The result is a compelling portrait of the myriad ways skin-color politics affect family dynamics in the United States. Tharps, the mother of three mixed-race children with three distinct skin colors, uses her own family as a starting point to investigate how skin-color difference is dealt with. Her journey takes her across the country and into the lives of dozens of diverse individuals, all of whom have grappled with skin-color politics and speak candidly about experiences that sometimes scarred them. From a Latina woman who was told she couldn't be in her best friend's wedding photos because her dark skin would "spoil" the pictures, to a light-skinned African American man who spent his entire childhood "trying to be Black," Tharps illuminates the complex and multifaceted ways that colorism affects our self-esteem and shapes our lives and relationships. Along with intimate and revealing stories, Tharps adds a historical overview and a contemporary cultural critique to contextualize how various communities and individuals navigate skin-color politics.

Groundbreaking and urgent, *Same Family, Different Colors* is a solution-seeking journey to the heart of identity politics, so that this more subtle "cousin to racism," in the author's words, will be exposed and confronted.
