Reiki Energy Medicine - Libby Barnett
1996-05-01

Reiki is an ancient, hands-on healing art with origins in the Tibetan sutras. It has been used primarily by individuals in a daily practice that helps recharge, realign, and rebalance energy in the body. Today Reiki is joining other complementary therapies in the conventional settings of hospitals, hospices, counseling centers, emergency rooms, intensive care units. Nurses, physical therapists, surgeons, midwives, and anesthesiologists report that Reiki can help manage pain and promote healing. Counselors and caregivers treating those with terminal illness find that Reiki gives patients an increased physical, emotional, and psychological ability to cope. Reiki Energy Medicine explains the body's energy system, and describes how Reiki can be used in a variety of settings to balance energy

and create the conditions needed for healing. Reiki Energy Medicine is the first book to show how this ancient art of touch therapy can work within our mainstream health care system. As our health-care system challenges institutions to offer high-quality but cost-effective service, Reiki can be an important tool that can help maximize patient care and minimize recovery time. Reiki does not require complicated techniques or extensive training: practitioners of many disciplines are able to easily incorporate it into their specialties.

Vortex Energy - Spider 2015-04-21

Wise People from every tradition have spoken about the present as the time when humanity will either destroy themselves and the planet or awaken a new consciousness that will become the foundation for the evolution of a new species. Many people are now developing the gifts to envision a positive future based on our role as conscious creators. Using Vortex Energy is one way that we can assist with the present dimensional changes. Through special hand placements, the Vortex uses the electromagnetic energy field of our bodies to polarize our energy. The harmonizing energy of the Vortex aligns our Spirit Essence to wholeness, our mind to peace, and our physical body to healing, thus shifting our energy vibration and triggering DNA

changes on a cellular level so that we can adapt and survive in the Fifth World. Spider puts thirty years of working with Vortex Energy into form in this beautiful book. It's filled with nuggets. My favorite paragraph is: "We cannot assume that our own perception is best for manifesting evolutionary changes for ourselves, another person or even Mother Earth. Indeed, our personal perception may limit the possibilities of the Vortex. Therefore, once we create the Vortex, we...allow the energy to do what it needs to do. ...Trust that you will be guided during this process. Amazing things happen for those who are sincerely ready to receive the abundance of the Universe." P. 42 - Hollis Melton, herbalist and publisher of Songs of Bleeding

Energy Medicine for Animals - Diane Budd
2019-02-19

A full-color, practical handbook on the bioenergetics of animal healing, with case studies to showcase the effects of vibrational medicine • Reveals how to work with the energy fields, auras, and chakras of horses, cats, and dogs • Demonstrates how to use High Sense Perception (HSP) in relation to an animal,

illustrating what happens in the energy fields of a human being and an animal when they connect telepathically • Details how zoopharmacognosy, or animal self-selection of remedies such as essential oils, can assist in promoting emotional release and physical healing Vibrational medicine offers a natural, effective, and hands-on response to animal ailments and disturbances. In the absence of a shared language of “words,” energetic healing can connect a human more closely to an animal while at the same time working on the physical body, the chakras, and the different layers of the animal’s aura or energy field. In this book, animal communicator and healer Diane Budd shares her intriguing journey, research, and experience of working with animals energetically. She explains how, together with a healer colleague, she set out to document the effects of animal communication and healing on the energy field of the animal and the communicator, which led to further in-depth

research. Detailing her findings, she reveals how to work with the energy fields, auras, and chakras of horses, cats, and dogs as well as what benefits energetic healing work can offer to animals. Sharing many case studies from her healing practice, the author explores what High Sense Perception (HSP) reveals about the relationship between an animal and human and how to make sense of what you are receiving on an intuitive level. Full-color illustrations clearly show the energy field, the energy flow between animals’ chakras, and what happens in the energy fields of a human being and an animal when they connect telepathically. The illustrations also help guide you, step-by-step, through the use of the healing tools and practices described. The author explains how zoopharmacognosy--animal self-selection of remedies such as essential oils or herbs--can support emotional release and physical healing, not only for animals but for humans too. She details animal personality types and their soul

evolution levels and explores the influence of an animal's past life on present-day issues, whether it be a past-life connection with the current owner or an issue the animal needs to work with in this present lifetime. Full of animal communication stories and ground-breaking research on animal energy fields, this book shows how, just as we humans are all here on this earthly plane to learn and grow, so are our animals.

energetic remedies. It provides a variety of ways to administer them to animals, and it takes the guesswork out of how they work. You will find remedies for: Addition or loss of a family member (animal or human) Fear of not enough attention to go around, Moving anxiety, Stress from specialized and obedience training, Living predominantly indoors, Immune system dysfunctions cause by processed pet food, Medical and surgical procedure recovery, Injuries and infestations, Exposure to environmental and household toxins, And many more. "Quietly, gently, radically, Sage Holloway challenges the veterinary industry to open its mind and its heart to a whole new range and vocabulary of care-giving. Every human being who resides with, or has feelings for, a member of some other species would do well to become familiar with these 'alternative' insights into health. As an interspecies guide, it is absorbing. Whether one agrees with all of its assertions matters not, for the underlying love of all plants

and animals that emerges from the book can only help to stop the cruelty that Homo sapiens have collectively, insanely inflicted on mother earth and all her precious progeny for thousands of years." Dr. Michael Tobias, author of World War III: Population and the Biosphere at the End of the Millennium and A Vision of Nature: Traces of the Original World "This book deserves to be read and its contents explored and tested by open-minded individuals interested in the process of healing." Bernie Siegel, M.D., author of Love, Medicine and Miracles and Prescriptions for Living "An illuminating guide of holistic wisdom that is essential to survival as a species and a wake up call that speaks to the amnesia of mainstream consciousness. As humankind awakens to its own need for natural rhythm and seeks to heal the separation of body and soul ... this sensitive book will serve as the map ... a way for us to see the road back to being keepers of the Earth and all her living creatures. Animal Healing And Vibrational

Medicine is a resonate voice of the Ancient Future ... it is time to celebrate" Springs Romano, Ph.D., author of Powers That Be "For years I have utilized vibrational remedies with animals - wild and domestic. They are one of the most effective healing methods for work with wildlife. Energy Medicine for Your Cat - Madison King
2015-12-18

After the success of Energy Medicine for your Dog, many people asked if it would work for cats. The simple answer is yes, to a degree, some of the more hands-on work in that book will transfer to a friendly, domesticated cat.

However, as every cat owner knows; cats are utterly unique and respond positively to a more gentle, spiritual, physically hands-off yet 'heartfelt' approach - especially those that have gone through trauma and are frightened or stressed. How you as an owner feel influences them greatly. A lot of the techniques benefit from you being grounded and in balance both emotionally and energetically, so I suppose a more accurate title would be 'Energy Medicine for your Cat (and you!)'. I have shared my entire life with cats and I hope that sharing some of what I have learned over those many years, will help you deepen the bond with your cat, ease its pain or suffering, optimise the feline self-healing process if it is ill and provide an effective health maintenance if it is well. I hope that you enjoy the read and truly appreciate that you and your love can be your cat's very best medicine!

Energy Medicine for Animals - Diane Budd
2019-02-05

A full-color, practical handbook on the bioenergetics of animal healing, with case studies to showcase the effects of vibrational medicine • Reveals how to work with the energy fields, auras, and chakras of horses, cats, and dogs • Demonstrates how to use High Sense Perception (HSP) in relation to an animal, illustrating what happens in the energy fields of a human being and an animal when they connect telepathically • Details how zoopharmacognosy, or animal self-selection of remedies such as

essential oils, can assist in promoting emotional release and physical healing. Vibrational medicine offers a natural, effective, and hands-on response to animal ailments and disturbances. In the absence of a shared language of “words,” energetic healing can connect a human more closely to an animal while at the same time working on the physical body, the chakras, and the different layers of the animal’s aura or energy field. In this book, animal communicator and healer Diane Budd shares her intriguing journey, research, and experience of working with animals energetically. She explains how, together with a healer colleague, she set out to document the effects of animal communication and healing on the energy field of the animal and the communicator, which led to further in-depth research. Detailing her findings, she reveals how to work with the energy fields, auras, and chakras of horses, cats, and dogs as well as what benefits energetic healing work can offer to

animals. Sharing many case studies from her healing practice, the author explores what High Sense Perception (HSP) reveals about the relationship between an animal and human and how to make sense of what you are receiving on an intuitive level. Full-color illustrations clearly show the energy field, the energy flow between animals’ chakras, and what happens in the energy fields of a human being and an animal when they connect telepathically. The illustrations also help guide you, step-by-step, through the use of the healing tools and practices described. The author explains how zoopharmacognosy--animal self-selection of remedies such as essential oils or herbs--can support emotional release and physical healing, not only for animals but for humans too. She details animal personality types and their soul evolvment levels and explores the influence of an animal’s past life on present-day issues, whether it be a past-life connection with the current owner or an issue the animal needs to

work with in this present lifetime. Full of animal communication stories and ground-breaking research on animal energy fields, this book shows how, just as we humans are all here on this earthly plane to learn and grow, so are our animals.

Positive Affirmations to Heal Your Pet and Other Animals - Margarete S. Birmingham,

PhD 2012-09-28

Animals, like children, respond immediately to any kind of affirmation because they do not judge them. Therefore, our responsibility as guardians, rescuers, keepers, or veterinarians is tremendous. An animal will absorb whatever thoughts or vibrations we send towards it and react accordingly. We can help improve an animal's state of mind and even physical or emotional condition using positive affirmations on a daily basis, during and after rescue operations, trauma episodes, surgeries, health challenges, behavioral issues, and such. The purpose of this book is to help those who love and help animals and believe in positive affirmations, or are open to learning about them, to expand their transformational healing effect to their loved pets or to any other animal that appears on their path for help. You can use these affirmations in various occasions and in many ways. You may adapt them to any situation, animal species, gender, or breed. Your heart will

guide you on how to use them. The key is consistency and legitimate coherence amongst

your thoughts, feelings, and actions toward the animal you are willing to help.
