Modern Auditing - William C. Boynton 2005-08-19

Auditing counts! With recent incidents at WorldCom, Enron, Xerox, Tyco, and other companies, auditing has never been so important. Auditing is perhaps our single best defense in ensuring the integrity of our financial reporting system. That's why this new Eighth Edition of Boynton and Johnson's Modern Auditing focuses on decision making and the critical role auditors play in providing assurance about the integrity of the financial reporting system. Known for its clear writing and accessibility, this text provides comprehensive and integrated coverage of current developments in the environment, standards, and methodology of auditing. Features * Real-world examples relate issues discussed in the chapter to ethics, audit decision making, and the integrity of the financial reporting system. * Focus on Audit Decisions sections highlight key factors that influence an auditor's decisions. * Includes discussion of the role of the Public Company Accounting Oversight Board (PCAOB) Auditing Standards, and a chapter feature highlights PCAOB standards that differ from

Generally Accepted Auditing Standards for private companies. * Expanded case material related to the integrated audit case (Mt. Hood Furniture) provides a variety of databases that allow students to utilize generalized audit software (IDEA) to accomplish various audit tasks. Multiple databases allow the case to be reused with different data from term to term. * A flowchart style chapter preview begins each chapter. * Chapter summaries reinforce important audit decisions included in the chapter. * End-of-chapter material organized by audit decisions provides a clear link between audit decisions discussed in each chapter and the problem material.

MP Loose-Leaf Auditing & Assurance Services 8e w/ACL CD - William Messier 2011-09-19

The authors believe students are best served by acquiring a strong understanding of the basic concepts that underlie the audit process and how to apply those concepts to various audit and assurance services. The primary purpose for an auditing text is not to serve as a reference manual but to facilitate student learning, and this text is written accordingly. The text is accessible to students through straightforward

writing and the use of engaging, relevant real-world examples, illustrations, and analogies. The text explicitly encourages students to think through fundamental concepts and to avoid trying to learn auditing through rote memorization. Students are prompted by the text to “stop and think,” at important points in the text, in order to help them apply the principles covered. The text continues to take a systematic approach to the audit process by first introducing the three underlying concepts: audit risk, materiality, and evidence. This is followed by a discussion of audit planning, the assessment of control risk, and a discussion of the nature, timing, and extent of evidence necessary to reach the appropriate level of detection risk. These concepts are then applied to each major business process and related account balances using a risk-based approach. In covering these important concepts and their applications, the book focuses on critical judgments and decision-making processes followed by auditors. Much of auditing practice involves the application of auditor judgment. If a student understands these basic concepts and how to apply them to an audit engagement, he or she will be more effective in today’s dynamic audit environment.

Fundamentals of Advanced Accounting - Joe Ben Hoyle 2003-07-01

Fundamentals of Advanced Accounting, 1e, by Hoyle/Schaefer/Doupnik is ideal for those schools wanting to cover 12 chapters in their advanced Accounting course. Modern Auditing & Assurance Services - Philomena Leung 2015

Modern Auditing & Assurance Services, 6th edition, is written for courses in auditing and assurance at undergraduate, postgraduate and professional levels. The practice of auditing is explained in the context of auditing theory, concepts and current practice, with appropriate reference to the Australian auditing standards and the respective international standards on auditing. Auditors play a vital role in the current economic environment, with increasing responsibility for ensuring market integrity. The development of auditing practice reflects how the accounting profession responds to the complex demands of information, competition, corporate failures and technology. Auditing continues to evolve in response to the changing business and regulatory landscape to maintain its relevance and importance. This book is a comprehensive guide to the development and practice of audits of a financial report, with an authoritative insight into the fundamental role of auditors, the influences on audits, and related issues.

Corporate Reporting - Geoff Everingham 2008-06-30

The realm of corporate reporting has shifted

significantly since the 7th edition of this book was published. With the world becoming an ever smaller place, the need for a set of global reporting standards has become all the more pressing. To this end two major frameworks have emerged as the flag bearers of global financial reporting standards viz International Financial Reporting Standards (IFRS) and US GAAP. The former has been mandatory for all companies listed on the JSE Securities Exchange Limited (JSE) since 2005. The differential framework ties in well with the recent amendments to the Companies Act in the form of the Corporate Laws Amendment Act (CLAA). The CLAA marks the first phase of Corporate Law reform in South Africa and aims to introduce, amongst other reforms, differential reporting for limited interest companies as defined, to ease the burden of financial reporting on entities where external use of financial information is limited. It will be followed by the new Companies Act which is currently at the Bill stage. The CLAA has an effective date of 14 December 2007. The disclosure requirements set out in this book apply to South African enterprises. They can therefore be applied to companies, close corporations, trusts and partnerships, irrespective of differences in capital structure. Enterprises which are subsidiaries of foreign parent companies may also be required to prepare their financial statements in a format, and with disclosure, that complies with reporting standards abroad. This could lead to disclosure additional to that required in South Africa as set out in this book.
