The Little Red Book of Fly Fishing - Kirk Deeter - 2010-05-01
Two highly respected outdoor journalists, Kirk Deeter of Field & Stream and Charlie Meyers of the Denver Post, have cracked open their notebooks and shared straight-shot advice on the sport of fly fishing, based on a range of new and old experiences—from interviews with the late Lee Wulff to travels with maverick guides in Tierra del Fuego. The mission of The Little Red Book of Fly Fishing is to demystify and un-complicate the tricks and tips that make a great trout fisher. There are no complicated physics lessons here. Rather, conceived in the “take dead aim” spirit of Harvey Penick’s classic instructional on golf, The Little Red Book of Fly Fishing offers a simple, digestible primer on the basic elements of fly fishing: the cast,

240 tips is one of the most insightful, plainly spoken, and entertaining works on this sport—one that will serve both novices and experts alike in helping them reflect and hone in their approaches to fly fishing.

Advanced Fly Fishing - Eugene F. Burns - 2017-09-15
Eugene Burns worked tirelessly and meticulously to research and understand the fundamentals of fly fishing. He questioned traditional fishing methods and ideas used for hundreds of years and honed in on subtle nuances most fishermen gloss over. He fundamentally changed fly fishing by revolutionizing casting with the Lazy S technique and introducing day-glo fluorescent materials to fly tying. “In every page of Advanced Fly Fishing the implied theme is plain,” writes Francis Sells, “each cast must embody all the techniques an angler knows or else he cannot realize the full potentialities of his fly, method and water.” From short and long casts to dry flies and spinners, Burns breaks new ground on all aspects of fly fishing. This is a perfect book for an experienced angler who wants to learn a few new techniques or a true beginner who wants to learn every aspect and angle of the sport.

Ultimate Trout Fishing in the Pacific Northwest - Larry E. Stefanyk - 2011-04-15
As the saying goes, to catch a fish, you've got to think like a fish. Ultimate Trout Fishing in the Pacific Northwest instructs readers on how to think like a fish, but more specifically, how to think like a local trout! Trout fishing is a rewarding sport and it's easy to get started: licenses are inexpensive, good equipment can be found in all price ranges, and best of all, trout are plentiful in saltwater, brackish estuaries, lakes of every size, small streams and large, fast-flowing rivers. There's no need for an expensive boat either as trout can be fished from shore, by casting from a small boat or trolling in a float tube. Want to know when to reach for an Elk Hair Caddis or Tom Thumb pattern or just go for a worm? Where to cast your Madam X for maximum appeal? Tried and true advice from old-timers is combined with the most up-to-date information from fishing guides and the latest findings from biologists. This guide covers both fly and spin-casting gear, recommended patterns and baits, as well as river, lake and ice fishing techniques, and information about trout found in our waters including rainbow and steelhead, cut-throats, brown and Dolly Varden char. With contributions from expert anglers and guides Phil Rowley, Ralph Shaw, Joie Cole, Matt Guiguet, Frank Dalziel, Kenzie Cuthbert, Bill Luscombe and Ron Thompson, here is an up-to-date and comprehensive look at all aspects of trout sport fishing in the Pacific Northwest.

The Little Black Book of Fly Fishing - Kirk Deeter - 2020-09-01
An Advanced Course in Fly Fishing The mission of The Little Red Book of Fly Fishing was to demystify and un-complicate the tricks and tips that make a great trout fisher. There are no complicated physics lessons in that book. Rather, The Little Red Book of Fly Fishing offered a simple, digestible primer on the basic elements of fly fishing: the cast, presentation, reading water, and selecting flies. In this, The Little Black Book of Fly Fishing, authors Kirk Deeter and Chris Hunt take you to the next level, building upon what Deeter and Charlie Meyers did in The Little Red Book. The Little Black Book will help fly fishers build upon what they learned in the Little Red Book. Read this valuable, thought-provoking guidebook, and you'll be at the point where you'll be catching fish when no one else is, and you'll know exactly why you are. Advanced casting, presentation, reading the water, fly selection, and much more, including proper gear selection, are all covered. The table of contents, below, explains it all. The Little Black Book of Fly Fishing Acknowledgments Foreword Introduction Part 1: CASTING A double-haul is really important, and not just in the salt Teaching someone new? Start with Tenkara Everybody needs a casting lesson. Everybody. Casting longer leaders 'Casting' nymphs under indicators Get a practice rod How to cast a 15-foot leader (and why you should) Casting at taillights The cast killer Your casting stroke follow joints by size Challenge your cast Great casts are the ones that get bit Score your casts like golf strokes; fewer is better The sand-save cast A reach cast is worth a thousand mends Five feet short on purpose (the linear false cast) Be Lefty in the salt, and Rajeff in the fresh Give yourself a "D" Beating wind Don't out-kick your coverage Part 2: PRESENTATION Fast strip for saltwater predators A swirl, not a rise Casting streamers upstream Carp: Not just for city kids Step out of your comfort zone What are the birds after? The potato chip fakeout Why natives matter But I still love brown trout best Micro-drag: where you stand matters You'll never beat a fish into submission Take it to the lake Float tubes and garbage cans Food never attacks fish A case for the dry-fly snob Go Deep in the name of fish research Roll fish for fun They're in skinny water for a reason The cafeteria line The escape hatch Part 3: READING WATER (AND FISH) The stripset Covering water Skate and twitch big flies in low light Rod tip down for streamers Weight an unweighted fly with fly-tying beads instead of split-shot Urban angling Get in shape. Stay in shape. Dry your fly first, apply floatant second Most fish (and some bugs) face upstream—present accordingly Head up, game over Step when you streamer Babysit your flies ID the "player" and get after it Gin clear water Flat calm water Developing "TSP" (trout sensory perception) A fish doesn't see like humans do Walk on The 10 second rule Like a dog on a leash Tip up or tip down? The keys to spotting fish The full-court press usually fails Use the whole spice cabinet River personalities and handshakes What the cloud layers tell you Knowing what they are not doing is equally important as knowing what they are Upwelling v. the straight seam The speed of the strike is proportionate to the depth of the water (in rivers) See this, do that Part 4: FLIES UV resin in home-tied flies Nymphs on the swing Multi-purpose flies Sparse for saltwater UV parachute posts Tip the fly for tying parachute posts Caddis: the most dishonest fly ever Wire or tinsel for dry flies The "pellet fly" you can feel good about Practice, practice, practice Peacock herl ... and why it works The mystery of the Purple Prince Nymph Profile is everything The Adams family Lethal mice The Mole Fly miracle Bob Behnke on colors Terrestrials are opportunity bugs The end of the duck Colors change with depth Un-matching the hatch The monkey poo fly Part 5: MISC. (Everything from gear, to fighting fish and angler ethics) Fly reels for trout are just line holders Fly reels matter for saltwater fish Faster rods aren't always better You get what you pay for Pride cometh before the fall Sheet-metal screws Wire for predators Quick-dry attire for the flats ABC. Anything But Cotton Snip your tippet at an angle Rod weight depends on fly types The best loop knot... perfection 7X tippet is BS Colors and camo above the surface Guitars and fly rods Bucket list places Tiger snakes and long hemostats It's a long way to the top if you wanna rock 'n roll Score fishing like cricket It's okay to fail I cheer for the fish

Cutthroat - Pat Trotter - 2008

Cutthroat tells the full story of the genuine native trout of the American
West. This new edition, thoroughly revised and updated after 20 years,
synthesizes what is currently known about one of our most interesting and
colorful fishes, includes much new information on its biology and ecology,
asks how it has fared in the last century, and looks toward its future. In a
passionate and accessibly written narrative, Patrick Trotter, fly fisher,
environmental advocate, and science consultant, details the evolution,
natural history, and conservation of each of the cutthroat's races and
incorporates more personal reflections on the ecology and environmental
history of the West's river ecosystems. The bibliography now includes what
may be the most comprehensive and complete set of references available
anywhere on the cutthroat trout. Written for anglers, nature lovers,
environmentalists, and students, and featuring vibrant original illustrations
by Joseph Tomelleri, this is an essential reference for anyone who wants to
learn more about this remarkable, beautiful, and fragile western native.

Featherwing and Hackle Flies for Salmon and Steelhead - Chris Mann - 2006

Directory of old and modern salmon flies Companion to Shrimp & Spey Flies for Salmon and Steelhead (0-8117-1428-4) and Hairwing & Tube Flies for Salmon and Steelhead (0-8117-3176-6) The tradition of tying salmon flies with feathers is a very old one, recorded in Ancient Greece, but the Victorians instilled artistry into salmon fly tying with their elaborate built-wing flies using feathers from a variety of exotic birds. After a period in which featherwing flies were eclipsed by those made from animal hairs and man-made materials, the popularity of these versatile feathers is resurging. This international guide features dressings from North America and Europe. The origins of patterns, precise dressings, and superb color illustrations will inspire fly tiers to attain new heights of achievement.

Featherwing and Hackle Flies for Salmon and Steelhead - Chris Mann - 2006

Directory of old and modern salmon flies Companion to Shrimp & Spey Flies for Salmon and Steelhead (0-8117-1428-4) and Hairwing & Tube Flies for Salmon and Steelhead (0-8117-3176-6) The tradition of tying salmon flies with feathers is a very old one, recorded in Ancient Greece, but the Victorians instilled artistry into salmon fly tying with their elaborate built-wing flies using feathers from a variety of exotic birds. After a period in which featherwing flies were eclipsed by those made from animal hairs and man-made materials, the popularity of these versatile feathers is resurging. This international guide features dressings from North America and Europe. The origins of patterns, precise dressings, and superb color illustrations will inspire fly tiers to attain new heights of achievement.

Backcasts - Samuel Snyder - 2016-07-11

"Many of us probably would be better fishermen if we did not spend so much time watching and waiting for the world to become perfect."-Norman Maclean Though Maclean writes of an age-old focus of all anglers—the day's catch—he may as well be speaking to another, deeper accomplishment of the best fishermen and fisherwomen: the preservation of natural resources. Backcasts celebrates this centuries-old confluence of fly fishing and conservation. However religious, however patiently spiritual the tying and casting of the fly may be, no angler wishes to wade into rivers of industrial runoff or cast into waters devoid of fish or full of invasive species like the Asian carp. So it comes as no surprise that those who fish have long played an active, foundational role in the preservation, management, and restoration of the world's coldwater fisheries. With sections covering the history of fly fishing; the sport's global evolution, from the rivers of South Africa to Japan; the journeys of both native and nonnative trout; and the work of conservation organizations such as the Federation of Fly Fishers and Trout Unlimited, Backcasts casts wide. Highlighting the historical significance of outdoor recreation and sports to conservation in a collection important for fly anglers and scholars of fisheries ecology, conservation history, and environmental ethics, Backcasts explores both the problems anglers and their organizations face and how they might serve as models of conservation—in the individual trout streams, watersheds, and landscapes through which these waters flow.

History of Fly-Fishing in Fifty Flies - Ian Whitelaw - 2015-04-07

The History of Fly-Fishing in Fifty Flies recounts the history of a sport that dates back 2,000 years, focusing on milestone flies from the first feathered hook to contemporary patterns using cutting-edge materials. Among the countless fly patterns created over the centuries, these 50 have been carefully chosen to represent the development not only of the flies themselves, but also of fly-fishing techniques—and of rods, lines, and reels. These iconic flies also chart the spread of this addictive sport from its modern origins on the chalk streams of southern England and the rivers of Scotland to the U.S., Europe, South America, Australia, and now to every country in the world. Filled with profiles of the key characters involved, tying tips, photographs and illustrations of the flies, and detailed

in Fifty Flies is a fascinating companion to the evolution of this fascinating sport.
