**Surveillance in the Time of Insecurity** - Torin Monahan 2010

Threats of terrorism, natural disaster, identity theft, job loss, illegal immigration, and even biblical apocalypse--all are perils that trigger alarm in people today. Although there may be a factual basis for many of these fears, they do not simply represent objective conditions. Feelings of insecurity are instilled by politicians and the media, and sustained by urban fortification, technological surveillance, and economic vulnerability. *Surveillance in the Time of Insecurity* fuses advanced theoretical accounts of state power and neoliberalism with original research from the social settings in which insecurity dynamics play out in the new century. Torin Monahan explores the counterterrorism-themed show 24, Rapture fiction, traffic control centers, security conferences, public housing, and gated communities, and examines how each manifests complex relationships of inequality, insecurity, and surveillance. Alleviating insecurity requires that we confront its mythic dimensions, the politics inherent in new configurations of security provision, and the structural obstacles to achieving equality in societies.

*Tales from the Pit* - David G. Schwartz 2016

Dealing in a casino presents challenges and rewards not seen in many workplaces. With hundreds of thousands of dollars at stake every minute, table games pits are high-stress workplaces. Managing a workforce of dealers and attending to the needs of players brings stresses of its own. In 2015, the University of Nevada, Las Vegas's Center for Gaming Research received a grant from the UNLV University Libraries Advisory Board that enabled it to undertake an oral history project intended to capture the stories of table games managers, including both those currently working in the field and those who have retired. Drawn from these interviews, *Tales from the Pit* provides an overview of how the interviewees felt about a variety of topics, ranging from their experiences breaking in as new dealers to their transitions to management and the changes the industry has seen over their careers. The current and former managers speak candidly about the owners, bosses, dealers, and players who made each day challenging. This book illuminates the past several decades of casino history through the words of those who lived and made it.

Radical Blackjack - Arnold Snyder 2021-06-01

Arnold Snyder needs no introduction. One of the seven original members of the Blackjack Hall of Fame, he's a prolific author of blackjack books, former publisher of the prestigious Blackjack Forum, and a blackjack advantage player extraordinaire. In his first book in many years, Arnold is back with what is shaping up to be his greatest work ever. Radical Blackjack is a memoir, how-to, and exposé all wrapped up in a single book. From his life as a starving letter carrier to making \$100,000 bets that he could only win by losing, this is a story that blackjack aficionados and gambling enthusiasts have wanted for decades. And it's all true. Snyder details his adventures in hole carding and shuffle tracking,

milking loss rebates; exploiting online casino bonuses and affiliate deals; using camouflage so effective that pit bosses considered him the world's worst blackjack player; playing on teams and with investor money, and maximizing results when playing with partners; while topping it all off with miscellaneous stories so wild they don't fit into any chapter! If you read only one gambling book this year, Radical Blackjack should be it.
