*Ellen Lanyon* - Ellen Lanyon 1999

A painter and printmaker of strong talent and intellect, Ellen Lanyon has been described by art historian Lucy Lippard as a "rare and peculiar American breed -- an honest, unpretentious, accessible, visionary artist, not unaware of, but resolutely independent of the imposed mainstreams of fashion". Naturalist and fantasist, her chief artistic concern over the past two decades has been to reveal the correspondences between nature and art as found in all manner of transformations and metamorphoses -- physical, magical, scientific, and/or psychological. This book documents 30 years of the surprising permutations of Lanyon's work, where obscure and bizarre objects, animals, landscapes and the instruments of human technology continually spring to surrealistic life. Together with an essay by Debra Bricker Balken, they present a comprehensive view of Lanyon's Unintentional Surrealism.

**Lieutenant Gustl** - Arthur Schnitzler 2003

With Peter Altenberg and Hugo von Hofmannsthal, Arthur Schnitzler was a major modernist of the period of Viennese intellectual activity from 1890 to 1930. Born in 1862 and trained as a physician, Schnitzler increasingly came to be influenced by the psychoanalysis centered around Sigmund Freud. Ultimately he gave up medicine to devote

himself to writing brilliant psychological portraits of the Viennese bourgeois and upper classes of the fin de siècle. Schnitzler's most famous works include his dramas. *Anatol* (1893), *Liebelei* (1896), and *The Green Cockatoo* (1899), and the fictions *The Lonely Way* (1904), *The Road Into the Open* (1908), *Casanova's Homecoming* (1918), and *Dream Story* (1926). *Lieutenant Gustl*, published in 1901, is among Schnitzler's major short works, and is important as one of the first examples in this century of "stream of consciousness" narration. James Joyce has admitted to have been influenced by this book in writing *Ulysses*. A tour de force of modernist point-of-view, *Lieutenant Gustl* is highly critical of Austria's militarism, and resulted in anti-Semitic attacks to Schnitzler when it was first published.

Melanie Fleurie is a woman of forty, a successful author who tries to write an autobiography so that she can reach a deeper understanding of her personal and sexual identity. The project fails, and instead she writes a letter to her ninety-year-old grandmother, Charlotte, setting down the stories of four generations of women. At the core of Marion Bloem's work are the difficulties facing second-generation Dutch-Indonesians: children who were born in The Netherlands, but who are sufficiently Indonesian to be barred from "belonging" to either country. They feel most drawn to Indonesia, but the realities of that country conflict with the nostalgic tales their older relatives tell about the East Indies. The magical and mysterious fabric of Indonesian culture, as seen from a Western point of view, is drawn tautly over the historical turmoil Indonesia experienced

during the Dutch colonial period, the Japanese Occupation and afterwards.

*Round Dance and Other Plays* - Arthur Schnitzler 2004-07-08

This is a unique collection of seven of Schnitzler's best known plays in a new English translation. They explore love, sexuality, and death in various guises, against the backdrop of turn-of-the-century Viennese decadence. The introduction explores the plays in relation to Schnitzler's life, to the culture of late twentieth-century Vienna, and to Modernism in general. - ;Flirtations \* Round Dance \* The Green Cockatoo \* The Last Masks \* Countess Mizzi \* The Vast Domain \* Professor Bernhardt The playwright Arthur Schnitzler is best known as the chronicler of fin de siècle Viennese decadence. Round Dance, written in the late 1890s, exposes sexual life in Vienna with such witty frankness that it could not be staged until after the First World War, when it provoked a riot in the theatre and a prosecution for indecency. The other plays in this collection explore love, sexuality, and death in various guises, always with a sharp, non-judgemental awareness of the complexity and mystery

of the psyche. Acquainted with Freud and his circle, Schnitzler probes beneath the surface of his characters to uncover emotions they barely understand. And in the tragicomedy Professor Bernhardt, Schnitzler addresses the growing anti-Semitism of the period. - ; Davies's translation once again brings us closer to a masterpiece of modern drama written before the twentieth century had even begun. - Leo A Lensing, TLS  
*The Parrot in Art* - Richard Verdi 2007

Since the Middle Ages the parrot has represented the Virgin birth of Christ, or acted as an eye-witness to the Fall of Man. It has also been celebrated as a domestic pet, featuring more prominently in Dutch scenes of ordinary life than in any other category of painting. In addition to making frequent appearances in still lifes and portraits, it sometimes impersonates or stands in for people, plays the role of a woman's surrogate lover, or mocks and comments on the follies of human behaviour. Richard Verdi presents works from all genres and periods, by artists including Durer, Steen, Tiepolo, Goya and Quentin Blake. He also encompasses the distinct but related field of natural history illustration with examples by Ferdinand Bauer, Edward Lear and Elizabeth Butterworth.
