The systems offer a number of FUJINON interchangeable zoom and prime lenses, and several more have been announced. In a

[Seattle 100](#) - Chase Jarvis
2010-10-04

Seattle 100: Portrait of a City is the culmination of a two-year personal project by renowned photographer, filmmaker, and social artist Chase Jarvis. Both a creative project and an insightful ethnography, Seattle 100 shares—via more than 300 stunning black-and-white portraits and biographies of each subject—a curated collection of leading artists, musicians, writers, scientists, restaurateurs, DJs, developers, activists, entrepreneurs, filmmakers, and more, all of whom are defining and driving culture in Seattle. Some faces you will know, other names you may have heard in passing, and others will have been unknown to you until now. With this book, Jarvis has created a snapshot of a city's culture through its people. And it's inclusive. Descriptive rather than prescriptive. It's a 100,

not an exclusive the 100, and it invites each of us to survey our own surroundings, our lives, our friends—and those not yet our friends—that make up the place we live, whether that's Seattle or anywhere else.

Individually, the images and words here introduce you to 100 engaging and important people. Collectively, this portrait of a city tells a fascinating, interwoven story about a unique and vibrant place. Beyond the photos and commentary by Jarvis, there are pithy musings by a select handful of subjects on the topics of art, food, community, region, culture, and film. In addition, many of the subjects share their favorite things, places, and doings in and around the Seattle that they have explored, discovered, and rediscovered time and again. Chase Jarvis is donating 100% of his artist proceeds from this book to the amazing arts and culture organization www.4culture.org.

lack. These rare images are memorable—the kind of shots that clients want and photographers strive to emulate. These portraits are technically precise and have style. Neil van Niekerk is a big name in the portrait and wedding photography industry. His masterful photographs get a reaction, and he's devoted to helping others create compelling portraits for their clients. In this book, van Niekerk shows readers strategies for creating a wide range of portrait looks (romantic, fun, sweet, dramatic, glamorous, or moody) in lackluster, middle-of-nowhere locales, small home studios, big expanses, and even on rooftops. Starting with traditional lighting and posing strategies and moving through "spicier" varieties, he shows readers how integrating specialized lighting (rim lighting, backlighting, flare, and low-key lighting—using natural light and artificial sources) and compositional approaches (shallow depth of field, lens compression, and

unorthodox perspectives) into their creative approach can allow them to take full creative control over their portrait-taking process so that they're able to deliver incredible shots of their clients in any photographic conditions.

IMAGINE - VII Foundation
2020-10-06

When battlefield prowess and political manipulation are not enough to achieve peace through victory, we summon our best and brightest to negotiate an end; we celebrate peace settlements; and we give prizes, if not to victors, then to visionaries. We exalt peace as a human achievement, and justly so. But the reality of peace is flawed. The rewards of peace are elusive for the men and women who live in the post-conflict societies of our time. Why is it so difficult to make a good peace when it is so easy to imagine? That is the question behind *Imagine: Reflections on Peace*. In this stunning collection,

photographic essays make grippingly palpable the stakes during war and peace. Samantha Power, former US Ambassador to the United Nations, Justice Richard Goldstone, and Jonathan Powell, chief negotiator for the Northern Ireland Good Friday agreement, are joined by world-renown writers in revealing the complexities of redemption and rebuilding in Bosnia and Herzegovina, Cambodia, Colombia, Lebanon, Northern Ireland, and Rwanda. We hear first person accounts of survival and the search for inner peace, bringing the big picture to a personal level. With added insights from scholars and practitioners, the book offers a rare and fascinating glimpse into the unvarnished story of peace and a window into what it takes for societies and individuals to move forward after unspeakable brutality.

Film Is Not Dead - Jonathan Canlas 2012-01-20

With the popularity of digital photography growing by leaps and bounds over the last decade, some say film has been dying a slow death ever since - or is already dead. The reality is that film has never gone away, and in recent years has experienced a surging, renewed popularity - sometimes simply for its retro, analog status, but mostly for film's ability to create a look and feel that many believe digital can still not achieve. If anyone can attest to this, it's Utah photographer Jonathan Canlas, who exclusively shoots with film, and has both an extremely successful wedding photography business as well as a series of popular workshops held numerous times per year around the world. In *Film Is Not Dead: A Digital Photographer's Guide to Shooting Film*, Canlas teams up

with co-author Kristen Kalp to open the doors for anyone who wants to begin-or return to-shooting film. Casual, irreverent, fun, inspiring, and beautiful, this unique 10x8 hardcover book teaches the reader the basics of film, cameras, and shooting in this medium. Whether it's discussing the different tone and color characteristics of different films (Kodak, Fuji, etc.), how to load a medium-format camera back, how to create proper exposures, how and where to get film processed, or how Jonathan uses fun, plastic cameras like the Holga in his commercial and personal work, *Film Is Not Dead* appeals to anyone who is searching to finally begin creating that film look, but until now hasn't known where to start.
