Identity in Organizations - Paul C. Godfrey 1998-07-21

How do people identify with organizations? What role does organizational identity play in organizational strategy? Identity in Organizations investigates the fundamental character of organizational identity and individual identification with an organization. Through the use of an unconventional,

conversational format the reader is drawn into a provocative discussion among key organizational scholars that focuses on three different paradigmatic views of identity: a functionalist perspective, an interpretive perspective, and a postmodern perspective. Similarities and distinctions among these ways of understanding are explored and numerous theoretical and practical insights are gained. This groundbreaking book concludes with a discussion of the relevance of identity as a construct in organizational study and observations on conversation and theory building. Many well-known scholars participate in the conversation, including Jay Barney, Denny Gioia, Mary Jo Hatch, Stuart Albert, Anne Huff, Judi McLean Parks, and Rod Kramer. Identity in Organizations will be of interest to professionals and students of organizational studies, human resource management, industrial psychology, sociology of work, psychology, and organizational

communication.

Corporate Social Responsibility in Management and Engineering - Carolina Machado 2022-09-01

Referring to an organizations responsibility for their impact on society, corporate social responsibility (CSR) is greatly relevant for the competitiveness, sustainability and innovation in the management and engineering arena of organizations, and the economy worldwide. Taking in account its these concerns, Corporate Social Responsibility in Management and Engineering covers the issues related to corporate social responsibility in management and engineering in a context where organizations are facing, day after day, high challenges

for what concerns issues related to their social responsibility. The book looks to contribute to the exchange of experiences and perspectives about the state of the research related to CSR, as well as the future direction of this field of research. It looks to provide a support to academics and researchers, as well as those that operating in the management field need to deal with policies and strategies related to CSR.
