The eBook Revolution: A Primer for Librarians on the Front Lines is exactly what its title promises: an essential resource for librarians facing the formidable task of coordinating the library-wide transition to eBooks and fielding questions from patrons about eBooks on a daily basis. After an introduction that covers the basics of eBooks and current eBook technology, the author puts things into perspective, documenting the changes that have occurred over the past decade. She also delves into important eBook issues, identifying librarian-driven solutions and providing glimpses of what libraries in the near future will likely be like. Warren Buffett's Ground Rules - Jeremy Miller 2017-05-04

At the age of 26, Warren Buffett founded Buffett Partnership Limited, which lasted from 1956 to 1970. During this time he wrote 33 letters to his small but growing group of partners. These letters chronicle his thoughts, approaches and reflections in the period immediately prior to his Berkshire Hathaway tenure - one that saw an unprecedented record of investing success. This early period was astonishing: in 1968 he beat the Dow by more than 50%. Because Buffett wanted to ensure that his partners understood his process, he wrote letters. In them, he sets out what he termed "ground rules" for investing that remain startlingly relevant today for every type of investor - from beginners to sophisticated pros. Warren Buffett's Ground Rules brings together, for the first time, and with Buffett's blessing, the key investment principles and teachings the letters reveal. Here you will find the basis for Buffett's contrarian diversification strategy, his almost religious celebration of compounding interest and his tactics for bettering market results by at least 10% annually. Quoting extensively and directly from Buffett, equity research expert Jeremy Miller introduces us to the timeless advice the letters contain, demonstrating a set of highly effective investment strategies that continue to resonate today.

Kettlebell Simple and Sinister - Pavel Tsatsouline 2019-09

Empty Mansions - Bill Dedman 2014-04-22

#1 NEW YORK TIMES BESTSELLER NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Janet Maslin, The New York Times • St. Louis Post-Dispatch When Pulitzer Prize-winning journalist Bill Dedman noticed in 2009 a grand home for sale, unoccupied for nearly sixty years, he stumbled through a surprising portal into American history. Empty Mansions is a rich mystery of wealth and loss, connecting the Gilded Age opulence of the nineteenth century with a twenty-first-century battle over a \$300 million inheritance. At its heart is a reclusive heiress named Huguette Clark, a woman so secretive that, at the time of her death at age 104, no new photograph of her had been seen in decades. Though she owned palatial homes in California, New York, and Connecticut, why had she lived for twenty years in a simple hospital room, despite being in excellent health? Why were her valuables being sold off? Was she in control of her fortune, or controlled by those managing her money? Dedman has collaborated with Huguette Clark's cousin, Paul Clark Newell, Jr., one of the few relatives to have frequent conversations with her. Dedman and Newell tell a fairy tale in reverse: the bright, talented daughter, born into a family of extreme wealth and privilege, who secrets herself away from the outside world. Huguette was the daughter of self-made copper industrialist W. A. Clark, nearly as rich as Rockefeller in his day, a controversial senator, railroad builder, and founder of Las Vegas. She grew up in the largest house in New York City, a remarkable dwelling with 121 rooms for a family of four. She owned paintings by Degas and Renoir, a world-renowned Stradivarius violin, a vast collection of antique dolls. But wanting more than treasures, she devoted her wealth to buying gifts for friends and strangers alike, to quietly pursuing her own work as an artist, and to guarding the privacy she valued above all else. The Clark family story spans nearly all of American history in three generations, from a log cabin in Pennsylvania to mining camps in the Montana gold rush, from backdoor politics in Washington to a distress call from an elegant Fifth Avenue apartment. The same Huguette who was touched by the terror attacks of 9/11 held a ticket nine decades earlier for a first-class stateroom on the second voyage of the Titanic.

Empty Mansions reveals a complex portrait of the mysterious Huguette and her intimate circle. We meet her extravagant father, her publicity-shy mother, her star-crossed sister, her French boyfriend, her nurse who received more than \$30 million in gifts, and the relatives fighting to inherit Huguette's copper fortune. Richly illustrated with more than seventy photographs, Empty Mansions is an enthralling story of an eccentric of the highest order, a last jewel of the Gilded Age who lived life on her own terms.

Fear of Missing Out - Patrick McGinnis 2020-05

What are you really missing out on? You're home on a Friday night, scrolling through Instagram, ready to go to bed. You see pictures on your timeline of a party you were invited to, but didn't go to. You were confident when you said no, but now you can't stop thinking about it, and you start feeling worse. You have FOMO, or, Fear of Missing Out. Patrick McGinnis, creator of the term FOMO, has been thinking about for seventeen years--and he has a solution: decision-making. Learning to weigh the costs and benefits of your choices, prioritizing your decisions, and listening to your gut are central to silencing FOMO and its lesser-known cousin, FOBO: Fear of a Better Option. After all, don't you want to feel comfortable and confident in your decisions? Written with self-evaluations throughout the book, *Fear of Missing Out: Practical Decision Making in a World of Overwhelming Choices* helps you ascertain and eliminate the parts of your life that are causing more anxiety than happiness. So give this a read, and then go to that party, start that new book, create a new goal--or don't. Make that decision, and be confident in it: it's the first of many of its kind.

Shadows in Time - Julie McElwain 2020-08-04

In 1816 London, Kendra Donovan tries to track down a missing man, but also finds trouble brewing closer to home in the fifth book in Julie McElwain's riveting time-travel mystery series. When Kendra Donovan is approached by Mrs. Gavenston with an unusual request—to find her business manager, Jeremy Pascoe, who recently vanished—the FBI agent is eager to accept the challenge. To Kendra's way of thinking, spending her time locating a missing person suits her more than perfecting her embroidery, painting watercolors, practicing on the pianoforte, or any of the other activities that are socially acceptable for young ladies in the early nineteenth century. Unfortunately, the missing person's case turns into a murder investigation after Kendra finds the man stabbed to death in a remote cottage that he'd been using as a writer's retreat. Everyone who knew him says that Pascoe was a fine fellow. So who hated him enough to kill him? Seeking the answer to that question plunges Kendra into the world of big business, as Mrs. Gavenston happens to run one of the largest breweries in England. And if there is one thing Kendra knows hasn't changed, it's that big business means big money . . . and money is always a motive for murder. While Kendra works to sift through the truth and lies swirling around Mr. Pascoe's life—and death—her world is rocked closer to home when a woman arrives claiming to be the Duke of Aldridge's presumably dead daughter, Charlotte. It is a distraction Kendra cannot afford, not when there is a killer lurking in the shadows who will do anything to keep the truth from being exposed.

All parts of the body need exercise for optimal health, and the eyes are no different. *Vision for Life* presents an approach to eye health for people with 20/20 vision who wish to maintain their perfect vision as well as people who see poorly and would like to improve their eyesight. Clients of the Meir Schneider Self-Healing Method experience their own capacity to bring about recovery, reversing the progress of a wide range of degenerative conditions including eye disease. Based in part on the established Bates Method of eyesight improvement and in part on his own professional and personal discoveries, Meir Schneider's pioneering approach has helped thousands of people successfully treat a host of eye problems, including near- and farsightedness, astigmatism, lazy eye, double vision, glaucoma, cataracts, macular degeneration, retinal detachment, retinitis pigmentosa, and nystagmus. This revised edition includes a new chapter on children's eye health and new research and exercises for specific conditions, i.e., glaucoma and nystagmus, near- and farsightedness. Born blind to deaf parents, Schneider underwent a series of painful operations as a young child and was left with 99 percent scar tissue on the lenses of his eyes, resulting in his being declared incurably blind. At the age of seventeen, he discovered how to improve his vision from less than 1 percent to 55 percent of normal vision with the eye exercises presented in this book. Today Schneider drives a car, reads, and enjoys the benefits of full natural vision. He and his clients prove

time and time again how much vision can improve with exercise. His contributions to the field of self-healing are recognized by alternative health practitioners and medical doctors alike. In *Vision for Life*, Schneider shares forty years of discoveries made on his personal and professional journey. The book details simple but effective techniques to gain great vision such as sunning and palming. Such exercises are not only strengthening but also restorative and deeply relaxing. Sexual Harassment in the UK Parliament - Christina Julios 2022
"Representing a major contribution to our knowledge and understanding of sexual harassment in the workplace, this is a strong candidate for becoming a seminal text in the area. Julios has approached the subject unflinchingly and head-on. She flags the slippery nature of definition, with the consequent confusion around perceptions of the term. Painstakingly, she has catalogued a wealth of rich examples, across occupational sectors and across country boundaries, convincingly building the case for the intersectional feminist analysis she adopted. Crucially, ways forward are also discussed. The book is certainly overdue in the UK, and internationally." -- Jenny Bimrose, Professor Emeritus, Institute for Employment Research, University of Warwick, UK "This important book documents the 'boys' club' ethos and terrifying degree of institutional sexism that have led to the ingrained and ongoing sexual harassment of women in the Westminster and other UK parliaments.

Christina Julios shows how women experiencing sexual harassment from their colleagues have been silenced through a corporate culture of complicity and points to the urgent need to counter the gender power gap that exists at the heart of our political system." -- Marianne Hester OBE FAcSS, Professor, Chair in Gender, Violence and International Policy at the University of Bristol, UK This book examines the phenomenon of sexual harassment in the UK Parliament and efforts to tackle it. The volume's in-depth research unveils a political culture where sexual transgressions thrive. Its intersectional feminist perspective furthermore highlights multiple systems of gendered oppression perpetuating inequality. Britain's experience is viewed against the global #MeToo movement and Hollywood's Weinstein sex scandal. The book identifies ways to redress the status quo and challenges ahead, including a gender power gap, misuse of non-disclosure agreements to silence victims, and misogynistic organisational cultures. Dr Christina Julios is an academic author, Honorary Associate at The Open University (UK) and Fellow of the Higher Education Academy (UK). She has authored the books Female Genital Mutilation and Social Media (2019), Forced Marriage and 'Honour' Killings in Britain (2015), and Contemporary British Identity (2008).

Playing Off the Rail - David McCumber 1997-04-01

At the age of 17, David McCumber was stricken with "road fever" that irresistible call to the itinerant life of a professional gambler. Twenty-two years later, he got the chance to follow that dream-not as a player but as the "stakehorse" (financial backer) for Tony Annigoni, a non-smoking, macrobiotic-eating "Renaissance Pool Hustler," student of Eastern religion, and master of the pure green-felt poetry of the dead stroke." With \$27,000 in David's pocket they took off together on an astonishing four-month odyssey across America-traveling from seedy, hole-in-the-wall billiard parlors to high-class snooker rooms to high-tension pro tournaments, from Seattle to Miami and back again-exploring a shady twilight subculture and uniquely American mythos, in search of serious money, local glory...and the perfect hustle.
