The Wim Hof Method - Wim Hof 2020-10-20

INSTANT NEW YORK TIMES BESTSELLER The only definitive book authored by Wim Hof on his powerful method for realizing our physical and spiritual potential. "This method is very simple, very accessible, and endorsed by science. Anybody can do it, and there is no dogma, only acceptance. Only freedom." —Wim Hof Wim Hof has a message for each of us: "You can literally do the impossible. You can overcome disease, improve your mental health and physical performance, and even control your physiology so you can thrive in any stressful situation." With The Wim Hof Method, this trailblazer of human potential shares a method that anyone can use—young or old, sick or healthy—to supercharge their capacity for strength, vitality, and happiness. Wim has become known as "The Iceman" for his astounding physical feats, such as spending hours

in freezing water and running barefoot marathons over deserts and ice fields. Yet his most remarkable achievement is not any record-breaking performance—it is the creation of a method that thousands of people have used to transform their lives. In his gripping and passionate style, Wim shares his method and his story, including:

- **Breath**—Wim's unique practices to change your body chemistry, infuse yourself with energy, and focus your mind
- **Cold**—Safe, controlled, shock-free practices for using cold exposure to enhance your cardiovascular system and awaken your body's untapped strength
- **Mindset**—Build your willpower, inner clarity, sensory awareness, and innate joyfulness in the miracle of living
- **Science**—How users of this method have redefined what is medically possible in study after study
- **Health**—True stories and testimonials from people using the method to overcome disease and chronic illness
- **Performance**—Increase your endurance, improve recovery time, up your mental game, and more
- **Wim's Story**—Follow Wim's inspiring personal journey of discovery, tragedy, and triumph
- **Spiritual Awakening**—How breath, cold, and mindset can reveal the beauty of your soul

Wim Hof is a

man on a mission: to transform the way we live by reminding us of our true power and purpose. "This is how we will change the world, one soul at a time," Wim says. "We alter the collective consciousness by awakening to our own boundless potential. We are limited only by the depth of our imagination and the strength of our conviction." If you're ready to explore and exceed the limits of your own potential, The Wim Hof Method is waiting for you.

Think Like a Monk - Jay Shetty 2020-09-08

Jay Shetty, social media superstar and host of the #1 podcast On Purpose, distills the timeless wisdom he learned as a monk into practical steps anyone can take every day to live a less anxious, more meaningful life. When you think like a monk, you'll understand: -How to overcome negativity -How to stop overthinking -Why comparison kills love -How to use your fear -Why you can't find happiness by looking for it -How to learn from everyone you meet -Why you are not your thoughts -How to find your purpose -Why kindness is crucial to success -And much more... Shetty grew up in a family where you could become one of three things—a doctor, a lawyer, or a failure. His family was convinced he had chosen option three: instead of attending his college graduation ceremony, he headed to India to become a monk, to meditate every day for four to eight hours, and devote his life to helping others. After three years, one of his teachers told him that he would have more impact on the world if he left the monk's path to share his experience and wisdom with others. Heavily in debt, and with no recognizable skills on his résumé, he moved back home in north London with his parents. Shetty reconnected with old school friends—many working for some of the world's largest corporations—who were experiencing tremendous stress, pressure, and unhappiness, and they invited Shetty to coach them on well-being, purpose, and mindfulness. Since then, Shetty has become one of the world's most popular influencers. In 2017, he was named in the Forbes magazine 30-under-30 for being a game-changer in the world of media. In 2018, he had the #1 video on Facebook with over 360 million views. His social media following totals over 38 million, he has produced over 400 viral videos which have amassed more than 8 billion views, and

his podcast, On Purpose, is consistently ranked the world's #1 Health and Wellness podcast. In this inspiring, empowering book, Shetty draws on his time as a monk to show us how we can clear the roadblocks to our potential and power. Combining ancient wisdom and his own rich experiences in the ashram, Think Like a Monk reveals how to overcome negative thoughts and habits, and access the calm and purpose that lie within all of us. He transforms abstract lessons into advice and exercises we can all apply to reduce stress, improve relationships, and give the gifts we find in ourselves to the world. Shetty proves that everyone can—and should—think like a monk.

Mindfulness-Based Cognitive Therapy for Depression, Second Edition - Zindel Segal 2018-06-04

This acclaimed work, now in a new edition, has introduced tens of thousands of clinicians to mindfulness-based cognitive therapy (MBCT) for depression, an 8-week program with proven effectiveness. Step by step, the authors explain the "whys" and "how-tos" of conducting mindfulness practices and cognitive interventions that have been shown to bolster recovery from depression and prevent relapse. Clinicians are also guided to practice mindfulness themselves, an essential prerequisite to teaching others. Forty-five reproducible handouts are included.

Purchasers get access to a companion website featuring downloadable audio recordings of the guided mindfulness practices (meditations and mindful movement), plus all of the reproducibles, ready to download and print in a convenient 8 1/2" x 11" size. A separate website for use by clients features the audio recordings only. New to This Edition

*Incorporates a decade's worth of developments in MBCT clinical practice and training. *Chapters on additional treatment components: the pre-course interview and optional full-day retreat. *Chapters on self-compassion, the inquiry process, and the three-minute breathing space. *Findings from multiple studies of MBCT's effectiveness and underlying mechanisms. Includes studies of adaptations for treating psychological and physical health problems other than depression. *Audio files of the guided mindfulness practices, narrated by the authors, on two separate Web pages—one for professionals, together with the reproducibles, and

one just for clients. See also the authors' related titles for clients: *The Mindful Way through Depression* demonstrates these proven strategies in a self-help format, with in-depth stories and examples. *The Mindful Way Workbook* gives clients additional, explicit support for building their mindfulness practice, following the sequence of the MBCT program. Plus, for professionals: *Mindfulness-Based Cognitive Therapy with People at Risk of Suicide* extends and refines MBCT for clients with suicidal depression.

The Fast 800 - Dr Michael Mosley 2019-01-04

Australian and New Zealand edition THE NO. 1 BESTSELLER IN AUSTRALIA AND THE UK BASED ON THE LATEST GROUNDBREAKING SCIENCE THE ULTIMATE GUIDE FROM THE CREATOR OF THE 5:2 - HOW TO COMBINE RAPID WEIGHT LOSS AND INTERMITTENT FASTING FOR LONG-TERM GOOD HEALTH AN EXCITING NEW PROGRAMME BUILT AROUND A MORE MANAGEABLE 800-CALORIE FAST DAY Six years ago, Dr Michael Mosley started a health revolution with The 5.2 Fast Diet, telling the world about the incredible power of intermittent fasting. In this book he brings together all the latest science (including a new approach: Time Restricted Eating) to create an easy-to-follow programme. Recent studies have shown that 800 calories is the magic number when it comes to successful dieting - it's an amount high enough to be manageable but low enough to speed weight loss and trigger a range of desirable metabolic changes. Depending on your goals, you can choose how intensively you want to do the programme: how many 800-calorie days to include each week, and how to adjust these as you progress. Along with delicious, low-carb recipes and menu plans by Dr Clare Bailey, *The Fast 800* offers a flexible way to help you lose weight, improve mood and reduce blood pressure, inflammation and blood sugars. Take your future health into your own hands. 'I lost 16kg in the first 8 weeks and then another 6kg. I've never been healthier.' Denise, 51

Peak Mind - Amishi P. Jha 2021-10-19

NATIONAL BESTSELLER STOP FOR A MOMENT. Are you here right now? Is your focus on this page? Or is it roaming elsewhere, to the past or future, to a worry, to your to-do list, or to your phone? Whether you're simply browsing, talking to friends, or trying to stay focused in an important meeting, you can't seem to manage to hang on to your attention. No matter how hard you try, you're somewhere else. The consequence is that you miss out on 50 percent of your life—including the most important moments. The good news: There's nothing wrong with you—your brain isn't broken. The human brain was built to be distractible. The even better news: You can train your brain to pay attention more effectively. Stay with me a little longer and soon you will be able to: Focus without all the struggle. Take back your attention from the pull of distraction. And function at your peak, for all that truly matters in your life.

Waking Up - Sam Harris 2014-09-09

For the millions of Americans who want spirituality without religion, Sam Harris's latest New York Times bestseller is a guide to meditation as a rational practice informed by neuroscience and psychology. From Sam Harris, neuroscientist and author of numerous New York Times bestselling books, *Waking Up* is for the twenty percent of Americans who follow no religion but who suspect that important truths can be found in

the experiences of such figures as Jesus, the Buddha, Lao Tzu, Rumi, and the other saints and sages of history. Throughout this book, Harris argues that there is more to understanding reality than science and secular culture generally allow, and that how we pay attention to the present moment largely determines the quality of our lives. *Waking Up* is part memoir and part exploration of the scientific underpinnings of spirituality. No other book marries contemplative wisdom and modern science in this way, and no author other than Sam Harris—a scientist, philosopher, and famous skeptic—could write it.

[The Mindful Way Workbook](#) - John D. Teasdale 2014-01-02

Imagine an 8-week program that can help you overcome depression, anxiety, and stress--by simply learning new ways to respond to your own thoughts and feelings. That program is mindfulness-based cognitive therapy (MBCT), and it has been tested and proven effective in clinical trials throughout the world. Now you can get the benefits of MBCT any time, any place, by working through this carefully constructed book. The expert authors introduce specific mindfulness practices to try each week, plus reflection questions, tools for keeping track of progress, and helpful comments from others going through the program. [You Are Not Your Pain](#) - Vidyamala Burch 2015-01-06

Developed by two authors, Vidyamala Burch and Danny Penman who themselves have struggled with severe pain after sustaining serious injuries, *You Are Not Your Pain* reveals a simple eight-week program of mindfulness-based practices that will melt away your suffering.

Accompanied by audio to guide you, the eight meditations in this book take just ten to twenty minutes per day and have been shown to be as effective as prescription painkillers to soothe some of the most common causes of pain. These mindfulness-based practices soothe the brain's pain networks, while also significantly reducing the anxiety, stress, exhaustion, irritability, and depression that often accompanies chronic pain and illness. Whether you experience back pain, arthritis, or migraines, are suffering from fibromyalgia, celiac disease, or undergoing chemotherapy, you will quickly learn to manage your pain and live life fully once again. Note: Audio meditations are embedded within the ebook. If your device cannot play the audio, you will be redirected to the same content online

[Mindfulness in Eight Weeks](#) - Michael Chaskalson 2014-09-11

In this book Michael guides the reader in an eight week course that is a hybrid of the two most popular approaches: Mindfulness-Based Stress Reduction (MBSR) and Mindfulness-Based Cognitive Therapy (MBCT), offering an easy-to-follow course that you can practise in your own time and within the comfort of your own home. Broken down into eight weeks (and with audio materials available to download to support home practice) with chapters such as 'Mindfulness for the Breath', 'Staying Present' and 'How Can I Best Take Care of Myself', reading this book is as near as you can get to bring a participant on a teacher-led mindfulness course without actually being on one. With step-by-step instructions carefully coordinated for each week, *Mindfulness in Eight Weeks* promises to have you up to speed in under two months.

The Mindful Way through Depression - J. Mark G. Williams 2012-06-04

If you've ever struggled with depression, take heart. Mindfulness, a simple yet powerful way of paying attention to your most difficult emotions and life experiences, can help you break the cycle of chronic unhappiness once and for all. In *The Mindful Way through Depression*, four uniquely qualified experts explain why our usual attempts to "think" our way out of a bad mood or just "snap out of it" lead us deeper into the downward spiral. Through insightful lessons drawn from both Eastern meditative traditions and cognitive therapy, they demonstrate how to sidestep the mental habits that lead to despair, including rumination and self-blame, so you can face life's challenges with greater resilience. This e-book includes an audio program of guided meditations, narrated by Jon Kabat-Zinn, for purchasers to stream or download from the Web. See also the authors' *Mindful Way Workbook*, which provides step-by-step guidance for building your mindfulness practice in 8 weeks. Plus, mental health professionals, see also the authors' bestselling therapy guide: *Mindfulness-Based Cognitive Therapy for Depression, Second Edition*. Wherever You Go, There You Are - Jon Kabat-Zinn 2009-07-01

No matter how busy you are, find quiet reflective moments in your life—and reduce your stress levels drastically—with this classic bestselling guide from a mindfulness expert. When *Wherever You Go, There You Are* was first published in 1994, no one could have predicted that the book would launch itself onto bestseller lists nationwide and sell over 750,000 copies to date. Ten years later, the book continues to change lives. In honor of the book's 10th anniversary, Hyperion is proud to be releasing the book with a new afterword by the author, and to share this wonderful book with an even larger audience.

Mindfulness in Positive Psychology - Itai Ivtzan 2016-03-17

Mindfulness in Positive Psychology brings together the latest thinking in these two important disciplines. Positive psychology, the science of wellbeing and strengths, is the fastest growing branch of psychology, offering an optimal home for the research and application of mindfulness. As we contemplate mindfulness in the context of positive psychology, meaningful insights are being revealed in relation to our mental and physical health. The book features chapters from leading figures from mindfulness and positive psychology, offering an exciting combination of topics. Mindfulness is explored in relation to flow, meaning, parenthood, performance, sports, obesity, depression, pregnancy, spirituality, happiness, mortality, and many other groundbreaking topics. This is an invitation to rethink about mindfulness in ways that truly expands our understanding of wellbeing. Mindfulness in Positive Psychology will appeal to a readership of students and practitioners, as well as those interested in mindfulness, positive psychology, or other relevant areas such as education, healthcare, clinical psychology, counselling psychology, occupational psychology, and coaching. The book explores cutting edge theories, research, and practical exercises, which will be relevant to all people interested in this area, and particularly those who wish to enhance their wellbeing via mindfulness.

Be Here Now - Ram Dass 1971-10-12

Beloved guru Ram Dass tells the story of his spiritual awakening and gives you the tools to take control of your life in this "counterculture bible" (The New York Times) featuring powerful guidance on yoga, meditation, and finding your true self. When *Be Here Now* was first published in 1971, it filled a deep spiritual emptiness, launched the ongoing mindfulness revolution, and established Ram Dass as perhaps the preeminent seeker of the twentieth century. Just ten years earlier, he was known as Professor Richard Alpert. He held appointments in four departments at Harvard University. He published books, drove a Mercedes and regularly vacationed in the Caribbean. By most societal standards, he had achieved great success. . . . And yet he couldn't escape the feeling that something was missing. Psilocybin and LSD changed

that. During a period of experimentation, Alpert peeled away each layer of his identity, disassociating from himself as a professor, a social cosmopolite, and lastly, as a physical being. Fear turned into exaltation upon the realization that at his truest, he was just his inner-self: a luminous being that he could trust indefinitely and love infinitely. And thus, a spiritual journey commenced. Alpert headed to India where his guru renamed him Baba Ram Dass—"servant of God." He was introduced to mindful breathing exercises, hatha yoga, and Eastern philosophy. If he found himself reminiscing or planning, he was reminded to "Be Here Now." He started upon the path of enlightenment, and has been journeying along it ever since. *Be Here Now* is a vehicle for sharing the true message, and a guide to self-determination.

Quiet Mind - David Kundtz 2003-01-01

The author of "Stopping" offers a soothing, experienced, and wise helping hand to readers in desperate need of a break. More than just a meditation book, "Quiet Mind" is a wonderful series of reflections that can illuminate every aspect of life.

10% Happier Revised Edition - Dan Harris 2019-05-21

I wrote a memoir about a fidgety, skeptical newsman who reluctantly becomes a meditator to deal with his issues - and in the process of publishing it, I occasionally, to my embarrassment, found myself failing to practice what I preach. I was kind of like a dog that soils the rug, and the universe kept shoving my face into it. In 2014, Dan Harris published his memoir *10% Happier*. The book—which describes his reluctant embrace of meditation after a drug problem, an on-air freak-out, and an unplanned "spiritual" journey—became an instant bestseller and Dan, to his own surprise, became a public evangelist for mindfulness. Hoist on My Own Petard is the story of what happens to Dan Harris after the runaway success of his memoir and the lessons he had to (re)learn in the process.

MINDFULNESS FOR BEGINNERS. - JON. KABAT ZINN 2017

Inner Engineering - Sadhguru 2016-09-20

NEW YORK TIMES BESTSELLER • Thought leader, visionary,

philanthropist, mystic, and yogi Sadhguru presents Western readers with a time-tested path to achieving absolute well-being: the classical science of yoga. "A loving invitation to live our best lives and a profound reassurance of why and how we can."—Sir Ken Robinson, author of *The Element*, *Finding Your Element*, and *Out of Our Minds: Learning to Be Creative* NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY SPIRITUALITY & HEALTH The practice of hatha yoga, as we commonly know it, is but one of eight branches of the body of knowledge that is yoga. In fact, yoga is a sophisticated system of self-empowerment that is capable of harnessing and activating inner energies in such a way that your body and mind function at their optimal capacity. It is a means to create inner situations exactly the way you want them, turning you into the architect of your own joy. A yogi lives life in this expansive state, and in this transformative book Sadhguru tells the story of his own awakening, from a boy with an unusual affinity for the natural world to a young daredevil who crossed the Indian continent on his motorcycle. He relates the moment of his enlightenment on a mountaintop in southern India, where time stood still and he emerged radically changed. Today, as the founder of Isha, an organization devoted to humanitarian causes, he lights the path for millions. The term guru, he notes, means "dispeller of darkness, someone who opens the door for you. . . . As a guru, I have no doctrine to teach, no philosophy to impart, no belief to propagate. And that is because the only solution for all the ills that plague humanity is self-transformation. Self-transformation means that nothing of the old remains. It is a dimensional shift in the way you perceive and experience life." The wisdom distilled in this accessible, profound, and engaging book offers readers time-tested tools that are fresh, alive, and radiantly new. *Inner Engineering* presents a revolutionary way of thinking about our agency and our humanity and the opportunity to achieve nothing less than a life of joy.

The New Codependency - Melody Beattie 2008-12-30

In Codependent No More, Melody Beattie introduced the world to the term codependency. Now a modern classic, this book established Beattie as a pioneer in self-help literature and endeared her to millions of readers who longed for healthier relationships. Twenty-five years later concepts such as self-care and setting boundaries have become entrenched in mainstream culture. Now Beattie has written a followup volume, The New Codependency, which clears up misconceptions about codependency, identifies how codependent behavior has changed, and provides a new generation with a road map to wellness. The question remains: What is and what is not codependency? Beattie here reminds us that much of codependency is normal behavior. It's about crossing lines. There are times we do too much, care too much, feel too little, or overly engage. Feeling resentment after giving is not the same as heartfelt generosity. Narcissism and self-love, enabling and nurturing, and controlling and setting boundaries are not interchangeable terms. In The New Codependency, Beattie explores these differences, effectively invoking her own inspiring story and those of others, to empower us to step out of the victim role forever. Codependency, she shows, is not an

illness but rather a series of behaviors that once broken down and analyzed can be successfully combated. Each section offers an overview of and a series of activities pertaining to a particular behavior -- caretaking, controlling, manipulation, denial, repression, etc. -- enabling us to personalize our own step-by-step guide to wellness. These sections, in conjunction with a series of tests allowing us to assess the level of our codependent behavior, demonstrate that while it may not seem possible now, we have the power to take care of ourselves, no matter what we are experiencing. Punctuated with Beattie's renowned candor and intuitive wisdom, The New Codependency is an owner's manual to learning to be who we are and gives us the tools necessary to reclaim our lives by renouncing unhealthy practices.

Mindfulness - Mark Williams 2011-05-05

THE LIFE-CHANGING BESTSELLER - OVER 1.5 MILLION COPIES SOLD 'A deeply compassionate guide to self-care - simple and profound' Sir Kenneth Branagh 'If you want to free yourself from anxiety and stress, and feel truly at ease with yourself, then read this book' Ruby Wax Authoritative, beautifully written and much-loved by its readers, Mindfulness: A practical guide to finding peace in a frantic world has become a word-of-mouth bestseller and global phenomenon. It reveals a set of simple yet powerful practices that you can incorporate into daily life to break the cycle of anxiety, stress unhappiness and exhaustion. It promotes the kind of happiness that gets into your bones and allows you to meet the worst that life throws at you with new courage. Mindfulness is based on mindfulness-based cognitive therapy (MBCT). Co-developed by Professor Mark Williams of Oxford University, MBCT is recommended by the UK's National Institute for Health and Care Excellence and is as effective as drugs for preventing depression. But, equally, it works for the rest of us who aren't depressed but who are struggling to keep up with the relentless demands of the modern world. By investing just a few minutes each day, this classic guide to mindfulness will put you back in control of your life once again.

Meditation Is Not What You Think - Jon Kabat-Zinn 2018-05-01

Welcome to a master class in mindfulness. Jon Kabat-Zinn is regarded as "one of the finest teachers of mindfulness you'll ever encounter" (Jack Kornfield). He has been teaching the tangible benefits of meditation in the mainstream for decades. Today, millions of people around the world have taken up a formal mindfulness meditation practice as part of their everyday lives. But what is meditation anyway? And why might it be worth trying? Or nurturing further if you already have practice? Meditation Is Not What You Think answers those questions. Originally published in 2005 as part of a larger book entitled Coming to Our Senses, it has been updated with a new foreword by the author and is even more relevant today. If you're curious as to why meditation is not for the "faint-hearted," how taking some time each day to drop into awareness can actually be a radical act of love, and why paying attention is so supremely important, consider this book an invitation to learn more -- from one of the pioneers of the worldwide mindfulness movement.

Mindfulness - Mark Williams 2012-11-13

MINDFULNESS reveals a set of simple yet powerful practices that can be incorporated into daily life to help break the cycle of anxiety, stress, unhappiness, and exhaustion. It promotes the kind of happiness and peace that gets into your bones. It seeps into everything you do and helps you meet the worst that life throws at you with new courage. The book is based on Mindfulness-Based Cognitive Therapy (MBCT). MBCT revolves around a straightforward form of mindfulness meditation which takes just a few minutes a day for the full benefits to be revealed. MBCT has been clinically proven to be at least as effective as drugs for depression and is widely recommended by US physicians and the UK's National Institute for Health and Clinical Excellence - in other words, it works. More importantly it also works for people who are not depressed but who are struggling to keep up with the constant demands of the modern world. MBCT was developed by the book's author, Oxford professor Mark Williams, and his colleagues at the Universities of Cambridge and Toronto. By investing just 10 to 20 minutes each day, you

can learn the simple mindfulness meditations at the heart of MBCT and fully reap their benefits. The book includes links to audio meditations to help guide you through the process. You'll be surprised by how quickly these techniques will have you enjoying life again.

Running with the Mind of Meditation - Sakyong Mipham 2013-04-09

A unique fitness program from a highly respected spiritual leader that blends physical and spiritual practice for everyone - regardless of age, spiritual background, or ability - to great benefits for both body and soul. As a Tibetan lama and leader of Shambhala (an international community of 165 meditation centers), Sakyong Mipham has found physical activity to be essential for spiritual well-being. He's been trained in horsemanship and martial arts but has a special love for running. Here he incorporates his spiritual practice with running, presenting basic meditation instruction and fundamental principles he has developed. Even though both activities can be complicated, the lessons here are simple and designed to show how the melding of internal practice with physical movement can be used by anyone - regardless of age, spiritual background, or ability - to benefit body and soul.

Self-Compassion - Dr. Kristin Neff 2011-04-19

Kristin Neff, Ph.D., says that it's time to "stop beating yourself up and leave insecurity behind." *Self-Compassion: Stop Beating Yourself Up and Leave Insecurity Behind* offers expert advice on how to limit self-criticism and offset its negative effects, enabling you to achieve your highest potential and a more contented, fulfilled life. More and more, psychologists are turning away from an emphasis on self-esteem and moving toward self-compassion in the treatment of their patients—and Dr. Neff's extraordinary book offers exercises and action plans for dealing with every emotionally debilitating struggle, be it parenting, weight loss, or any of the numerous trials of everyday living.

Living in the Moment - Anna Black 2012-02-09

Most of us operate on auto-pilot much of the time, passing through the present moment with our mind either caught up in the past or straining toward the future. Through mindfulness meditation, an ancient Buddhist practice, Anna Black shows you how to intentionally pay attention to your daily experience. When we are not being mindful, we miss out on small moments that often are the most valuable—be it a beautiful building that we pass on our journey to work, the taste and texture of lovingly prepared food, or the fact that we are needed by those we love the most. By being "mindless" we miss opportunities for personal growth by not being aware of our shortcomings or our inner strength, or by letting negative thoughts and emotions control us. In mindfulness meditation we pay attention to our ongoing experience whether it is pleasant—such as appreciating a starry night sky; unpleasant—a disagreement with a loved one; or neutral—doing chores. We become aware of our habitual thoughts and behaviors and discover which are helpful and which are not. We learn to listen to the body and pick up warning signs of stress as

well as tune in to our inner wisdom.

Character Strengths and Virtues - Christopher Peterson 2004-04-08

"Character" has become a front-and-center topic in contemporary discourse, but this term does not have a fixed meaning. Character may be simply defined by what someone does not do, but a more active and thorough definition is necessary, one that addresses certain vital questions. Is character a singular characteristic of an individual, or is it composed of different aspects? Does character--however we define it--exist in degrees, or is it simply something one happens to have? How can character be developed? Can it be learned? Relatedly, can it be taught, and who might be the most effective teacher? What roles are played by family, schools, the media, religion, and the larger culture? This groundbreaking handbook of character strengths and virtues is the first progress report from a prestigious group of researchers who have undertaken the systematic classification and measurement of widely valued positive traits. They approach good character in terms of separate strengths--authenticity, persistence, kindness, gratitude, hope, humor, and so on--each of which exists in degrees. *Character Strengths and Virtues* classifies twenty-four specific strengths under six broad virtues that consistently emerge across history and culture: wisdom, courage, humanity, justice, temperance, and transcendence. Each strength is thoroughly examined in its own chapter, with special attention to its meaning, explanation, measurement, causes, correlates, consequences, and development across the life span, as well as to strategies for its deliberate cultivation. This book demands the attention of anyone interested in psychology and what it can teach about the good life.

Mindfulness for Creativity - Danny Penman 2021-03-30

Work deadlines, to-do lists, family commitments, pressure to perform... Our frantic lives demand so much from us that we can often feel locked into a cycle of frustration, anxiety and stress, unable to tackle the tasks before us or see a way out of our habitual ways of thinking and doing things. Yet there is a way out. The simple mindfulness techniques at the

heart of this book can help us lead a more creative and productive life - one that is isn't governed by the chaotic pace of life. They also dissolve anxiety, stress and depression while enhancing mental resilience. The four week programme takes just 10-20 minutes per day. The easy-to-follow programme works by soothing and clearing your mind, allowing innovative ideas to take form and crystallise. This helps you to spontaneously 'see' the solution to a problem, to conjure up new ideas, or to create works that have true insight and flair. The programme helps build the courage necessary for you to follow your ideas wherever they should lead - and the resilience to cope with any setbacks. It will help your mind work more effectively so that you can live more intuitively and have the inner confidence to drive your ideas forward. The accompanying download link contains 6 meditations that you can use to build an ongoing practice, mixing and matching meditations to suit your circumstances

Mindfulness for All - Jon Kabat-Zinn 2019-02-05

More than twenty years ago, Jon Kabat-Zinn changed the way we thought about awareness in everyday life with his now-classic introduction to mindfulness, *Wherever You Go, There You Are*. He followed that up with 2005's *Coming to Our Senses*, the definitive book for our time on the connection between mindfulness and our well-being on every level, physical, cognitive, emotional, social, planetary, and spiritual. Now, *Coming to Our Senses* is being repackaged into 4 smaller books, each focusing on a different aspect of mindfulness, and each with a new foreword written by the author. In the fourth of these books, *Mindfulness for All* (which was originally published as Part VII and Part VIII of *Coming to Our Senses*), Kabat-Zinn focuses on how mindfulness really can be a tool to transform the world--explaining how democracy thrives in a mindful context, and why mindfulness is a vital tool for both personal

and global understanding and action in these tumultuous times. By "coming to our senses"--both literally and metaphorically--we can become more compassionate, more embodied, more aware human beings, and in the process, contribute to the healing of the body politic as well as our own lives in ways both little and big.

Learning How to Learn - Barbara Oakley, PhD 2018-08-07

A surprisingly simple way for students to master any subject--based on one of the world's most popular online courses and the bestselling book *A Mind for Numbers* and its wildly popular online companion course "Learning How to Learn" have empowered more than two million learners of all ages from around the world to master subjects that they once struggled with. Fans often wish they'd discovered these learning strategies earlier and ask how they can help their kids master these skills as well. Now in this new book for kids and teens, the authors reveal how to make the most of time spent studying. We all have the tools to learn what might not seem to come naturally to us at first--the secret is to understand how the brain works so we can unlock its power. This book explains:

- Why sometimes letting your mind wander is an important part of the learning process
- How to avoid "rut think" in order to think outside the box
- Why having a poor memory can be a good thing
- The value of metaphors in developing understanding
- A simple, yet powerful, way to stop procrastinating

Filled with illustrations, application questions, and exercises, this book makes learning easy and fun.
