The Last Holiday Concert - Andrew Clements
2012-06-12

A moving holiday story from New York Times bestselling author Andrew Clements. For Hart Evans, being the most popular kid in sixth grade has its advantages. Kids look up to him, and all the teachers let him get away with anything -- all the teachers except the chorus director, Mr. Meinert. When Hart's errant rubber band hits Mr. Meinert on the neck during chorus practice, it's the last straw for the chorus director, who's just learned he's about to lose his job due to budget cuts. So he tells the class they can produce the big holiday concert on their own. Or not. It's all up to them. And who gets elected to run the show? The popular Mr. Hart Evans. Hart soon discovers there's a big difference between popularity and leadership, and to his surprise,

discovers something else as well -- it's really important to him that this be the best holiday concert ever, and even more important, that it not be the last.

How Stella Learned to Talk - Christina Hunger
2021-05-04

INSTANT NEW YORK TIMES BESTSELLER An incredible, revolutionary true story and surprisingly simple guide to teaching your dog to talk from speech-language pathologist Christina Hunger, who has taught her dog, Stella, to communicate using simple paw-sized buttons associated with different words. When speech-language pathologist Christina Hunger first came home with her puppy, Stella, it didn't take long for her to start drawing connections between her job and her new pet. During the day, she worked with toddlers with significant delays in language development and used Augmentative and Alternative Communication (AAC) devices to help them communicate. At night, she wondered: If dogs can understand

words we say to them, shouldn't they be able to say words to us? Can dogs use AAC to communicate with humans? Christina decided to put her theory to the test with Stella and started using a paw-sized button programmed with her voice to say the word "outside" when clicked, whenever she took Stella out of the house. A few years later, Stella now has a bank of more than thirty word buttons, and uses them daily either individually or together to create near-complete sentences. *How Stella Learned to Talk* is part memoir and part how-to guide. It chronicles the journey Christina and Stella have taken together, from the day they met, to the day Stella "spoke" her first word, and the other breakthroughs they've had since. It also reveals the techniques Christina used to teach Stella, broken down into simple stages and actionable steps any dog owner can use to start communicating with their pets. Filled with conversations that Stella and Christina have had, as well as the attention to developmental detail

that only a speech-language pathologist could know, *How Stella Learned to Talk* will be the indispensable dog book for the new decade.

[How to Talk About Books You Haven't Read](#) - Pierre Bayard 2010-08-10

In this delightfully witty, provocative book, literature professor and psychoanalyst Pierre Bayard argues that not having read a book need not be an impediment to having an interesting conversation about it. (In fact, he says, in certain situations reading the book is the worst thing you could do.) Using examples from such writers as Graham Greene, Oscar Wilde, Montaigne, and Umberto Eco, he describes the varieties of "non-reading"-from books that you've never heard of to books that you've read and forgotten-and offers advice on how to turn a sticky social situation into an occasion for creative brilliance. Practical, funny, and thought-provoking, *How to Talk About Books You Haven't Read*-which became a favorite of readers everywhere in the hardcover edition-is in the end a love letter to

books, offering a whole new perspective on how we read and absorb them.

Talking to Strangers - Malcolm Gladwell

2019-09-10

Malcolm Gladwell, host of the podcast Revisionist History and author of the #1 New York Times bestseller Outliers, offers a powerful examination of our interactions with strangers and why they often go wrong—now with a new afterword by the author. A Best Book of the Year: The Financial Times, Bloomberg, Chicago Tribune, and Detroit Free Press How did Fidel

Castro fool the CIA for a generation? Why did Neville Chamberlain think he could trust Adolf Hitler? Why are campus sexual assaults on the rise? Do television sitcoms teach us something about the way we relate to one another that isn't true? Talking to Strangers is a classically Gladwellian intellectual adventure, a challenging and controversial excursion through history, psychology, and scandals taken straight from the news. He revisits the deceptions of Bernie Madoff, the trial of Amanda Knox, the suicide of Sylvia Plath, the Jerry Sandusky pedophilia scandal at Penn State University, and the death of Sandra Bland—throwing our understanding of these and other stories into doubt. Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don't know. And because we don't know how to talk to strangers, we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world. In his first book since his #1 bestseller David and Goliath,

Malcolm Gladwell has written a gripping guidebook for troubled times.

Factfulness - Hans Rosling 2018-04-03
INSTANT NEW YORK TIMES BESTSELLER
"One of the most important books I've ever read—an indispensable guide to thinking clearly about the world." - Bill Gates "Hans Rosling tells the story of 'the secret silent miracle of human progress' as only he can. But *Factfulness* does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly." —Melinda

Gates "*Factfulness* by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases." - Former U.S. President Barack Obama
Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world's population live in poverty; why the world's population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In *Factfulness*, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to

divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, *Factfulness* is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- "This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening

software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be." Hans Rosling, February 2017.

Fake Accounts - Lauren Oyler 2021-02-02

A NATIONAL BESTSELLER * A NEW YORK
TIMES BOOK REVIEW EDITORS' CHOICE * A
WASHINGTON POST BEST BOOK OF THE

YEAR "An invigorating work, deadly precise in
its skewering of people, places and things . . .

Stylish, despairing and very funny, Fake

Accounts . . . adroitly maps the dwindling gap
between the individual and the world." —Katie

Kitamura, The New York Times Book Review A
woman in a tailspin discovers that her boyfriend
is an anonymous online conspiracy theorist in
this "absolutely brilliant take on the bizarre and

despicable ways the internet has warped our
perception of reality" (Elle, One of the Most
Anticipated Books of the Year). On the eve of
Donald Trump's inauguration, a young woman
snoops through her boyfriend's phone and
makes a startling discovery: he's an anonymous
internet conspiracy theorist, and a popular one
at that. Already fluent in internet fakery, irony,
and outrage, she's not exactly shocked by the
revelation. Actually, she's relieved--he was
always a little distant--and she plots to end their
floundering relationship while on a trip to the
Women's March in DC. But this is only the first
in a series of bizarre twists that expose a world
whose truths are shaped by online lies. Suddenly
left with no reason to stay in New York and
increasingly alienated from her friends and
colleagues, our unnamed narrator flees to
Berlin, embarking on her own cycles of
manipulation in the deceptive spaces of her daily
life, from dating apps to expat meetups, open-
plan offices to bureaucratic waiting rooms. She

begins to think she can't trust anyone--shouldn't the feeling be mutual? Narrated with seductive confidence and subversive wit, Fake Accounts challenges the way current conversations about the self and community, delusions and gaslighting, and fiction and reality play out in the internet age.

McDormand. INTERNATIONAL BESTSELLER
"This amazing, sad, shocking, but touching novel, based on a real-life event, could be right out of *The Handmaid's Tale*." -Margaret Atwood, on Twitter "Scorching . . . a wry, freewheeling novel of ideas that touches on the nature of evil, questions of free will, collective responsibility, cultural determinism, and, above all, forgiveness." -New York Times Book Review, Editors' Choice One evening, eight Mennonite women climb into a hay loft to conduct a secret meeting. For the past two years, each of these women, and more than a hundred other girls in their colony, has been repeatedly violated in the night by demons coming to punish them for their sins. Now that the women have learned they were in fact drugged and attacked by a group of men from their own community, they are determined to protect themselves and their daughters from future harm. While the men of the colony are off in the city, attempting to raise enough money to bail out the rapists and bring

them home, these women—all illiterate, without any knowledge of the world outside their community and unable even to speak the language of the country they live in—have very little time to make a choice: Should they stay in the only world they've ever known or should they dare to escape? Based on real events and told through the "minutes" of the women's all-female symposium, Toews's masterful novel uses wry, politically engaged humor to relate this tale of women claiming their own power to decide.

How to Improve Your Marriage Without Talking About It - Patricia Love, Ed.D.

2008-04-29

Men are right. The “relationship talk” does not help. Dr. Patricia Love’s and Dr. Steven Stosny’s *How to Improve Your Marriage Without Talking About It* reveals the stunning truth about marital happiness: • Love is not about better communication. It's about connection. • You'll never get a closer relationship with your man by talking to him like you talk to one of your girlfriends. • Male emotions are like women's sexuality: you can't be too direct too quickly. • There are four ways to connect with a man: touch, activity, sex, routines. • Men want closer marriages just as much as women do, but not if they have to act like a woman. • Talking

makes women move closer; it makes men move away. • The secret of the silent male is this: his wife supplies the meaning in his life. • The stunning truth about love is that talking doesn't help. Drs. Patricia Love and Steven Stosny have studied this all-too-familiar dynamic between men and women and have reached a truly shocking conclusion. Even with the best of intentions, talking about your relationship doesn't bring you together, and it will eventually drive you apart. The reason for this is that underneath most couples' fights, there is a biological difference at work. A woman's vulnerability to fear and anxiety makes her draw closer, while a man's subtle sensitivity to shame makes him pull away in response. This is why so many married couples fall into the archetypal roles of nagging wife/stonewalling husband, and why improving a marriage can't happen through words. *How to Improve Your Marriage Without Talking About It* teaches couples how to get closer in ways that don't require “trying to turn

a man into a woman.” Rich in stories of couples who have turned their marriages around, and full of practical advice about the behaviors that make and break marriages, this essential guide will help couples find love beyond words.

A Week in the Woods - Andrew Clements
2002-09-20

Now the whole school is headed out for a week of camping -- Hardy's famous Week in the Woods. At first it sounds dumb, but then Mark begins to open up to life in the country, and he decides it might be okay to learn something new. It might even be fun. But things go all wrong for Mark. The Week in the Woods is not what anyone planned. Especially not Mr. Maxwell. With his uncanny knack to reach right to the heart of kids, Andrew

Clements asks -- and answers -- questions about first impressions, fairness, loyalty, and courage - - and exactly what it takes to spend a Week in the Woods.

No One Is Talking About This - Patricia Lockwood 2021-02-16
FINALIST FOR THE 2021 BOOKER PRIZE & A NEW YORK TIMES TOP 10 BOOK OF 2021
WINNER OF THE DYLAN THOMAS PRIZE “A book that reads like a prose poem, at once sublime, profane, intimate, philosophical, witty and, eventually, deeply moving.” —New York Times Book Review, Editors’ Choice “Wow. I can’t remember the last time I laughed so much reading a book. What an inventive and startling writer...I’m so glad I read this. I really think this book is remarkable.” —David Sedaris From “a formidably gifted writer” (The New York Times

Book Review), a book that asks: Is there life after the internet? As this urgent, genre-defying book opens, a woman who has recently been elevated to prominence for her social media posts travels around the world to meet her adoring fans. She is overwhelmed by navigating the new language and etiquette of what she terms "the portal," where she grapples with an unshakable conviction that a vast chorus of voices is now dictating her thoughts. When existential threats--from climate change and economic precariousness to the rise of an unnamed dictator and an epidemic of loneliness--begin to loom, she posts her way deeper into the portal's void. An avalanche of images, details, and references accumulate to form a landscape that is post-sense, post-irony, post-everything. "Are we in hell?" the people of the portal ask themselves. "Are we all just going to keep doing this until we die?" Suddenly, two texts from her mother pierce the fray: "Something has gone wrong," and "How soon can you get here?" As

real life and its stakes collide with the increasingly absurd antics of the portal, the woman confronts a world that seems to contain both an abundance of proof that there is goodness, empathy, and justice in the universe, and a deluge of evidence to the contrary. Fragmentary and omniscient, incisive and sincere, *No One Is Talking About This* is at once a love letter to the endless scroll and a profound, modern meditation on love, language, and human connection from a singular voice in American literature.

No Talk Therapy for Children and Adolescents - Martha B Straus 1999-02-02
Weaving practical, hands-on ideas with theory and research about child development, child treatment, and the therapeutic relationship, this book describes an innovative approach to treatment of children and adolescents who won't or can't respond to traditional, conversation-based therapy. For these children, therapists need an entirely new clinical language, one that doesn't depend on words. Within an interpersonal and developmental framework, Straus spells out the deceptively simple goals of no-talk therapy: someone to be close to, and something to be proud of. Through empathy and respect, games, activities, community involvement, a circle of adults, and little pleasures, this approach begins to provide these

anxious, sullen, enraged, and confused kids with the self-confidence, self-esteem, and self-awareness to develop a voice of their own.

If Our Bodies Could Talk - James Hamblin
2017-12-12

"If you want to understand the strange workings of the human body, and the future of medicine, you must read this illuminating, engaging book." —Siddhartha Mukherjee, author of *The Gene* In 2014, James Hamblin launched a series of videos for *The Atlantic* called "If Our Bodies Could Talk." With it, the doctor-turned-journalist established himself as a seriously entertaining authority in the field of health. Now, in illuminating and genuinely funny prose, Hamblin explores the human stories behind health questions that never seem to go away—and which tend to be mischaracterized and oversimplified by marketing and news media. He covers topics such as sleep, aging, diet, and much more: • Can I "boost" my immune system? • Does caffeine make me live longer? • Do we

still not know if cell phones cause cancer? • How much sleep do I actually need? • Is there any harm in taking a multivitamin? • Is life long enough? In considering these questions, Hamblin draws from his own medical training as well from hundreds of interviews with distinguished scientists and medical practitioners. He translates the (traditionally boring) textbook of human anatomy and physiology into accessible, engaging, socially contextualized, up-to-the-moment answers. They offer clarity, examine the limits of our certainty, and ultimately help readers worry less about things that don't really matter. *If Our Bodies Could Talk* is a comprehensive, illustrated guide that entertains and educates in equal doses.

White Fragility - Dr. Robin DiAngelo
2018-06-26

The *New York Times* best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain

racial inequality. In this “vital, necessary, and beautiful book” (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and “allows us to understand racism as a practice not restricted to ‘bad people’ (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

Priestdaddy - Patricia Lockwood 2018-05-01
ONE OF THE NEW YORK TIMES BOOK REVIEW'S 10 BEST BOOKS OF THE YEAR
NAMED ONE OF THE 50 BEST MEMOIRS OF THE PAST 50 YEARS BY THE NEW YORK TIMES
SELECTED AS A BEST BOOK OF THE YEAR BY: The Washington Post * Elle * NPR * New York Magazine * Boston Globe * Nylon *

Slate * The Cut * The New Yorker * Chicago Tribune WINNER OF THE THURBER PRIZE FOR AMERICAN HUMOR “Affectionate and very funny . . . wonderfully grounded and authentic. This book proves Lockwood to be a formidably gifted writer who can do pretty much anything she pleases.” - The New York Times Book Review From Booker Prize finalist Patricia Lockwood, author of the novel *No One Is Talking About This*, a vivid, heartbreakingly funny memoir about balancing identity with family and tradition. Father Greg Lockwood is unlike any Catholic priest you have ever met—a man who lounges in boxer shorts, loves action movies, and whose constant jamming on the guitar reverberates “like a whole band dying in a plane crash in 1972.” His daughter is an irreverent poet who long ago left the Church’s country. When an unexpected crisis leads her and her husband to move back into her parents’ rectory, their two worlds collide. In *Priestdaddy*, Lockwood interweaves emblematic moments

from her childhood and adolescence—from an ill-fated family hunting trip and an abortion clinic sit-in where her father was arrested to her involvement in a cultlike Catholic youth group—with scenes that chronicle the eight-month adventure she and her husband had in her parents’ household after a decade of living on their own. Lockwood details her education of a seminarian who is also living at the rectory, tries to explain Catholicism to her husband, who is mystified by its bloodthirstiness and arcane laws, and encounters a mysterious substance on a hotel bed with her mother. Lockwood pivots from the raunchy to the sublime, from the comic to the deeply serious, exploring issues of belief, belonging, and personhood. *Priestdaddy* is an entertaining, unforgettable portrait of a deeply odd religious upbringing, and how one balances a hard-won identity with the weight of family and tradition.

A book that had me hollering, nodding and questioning at the same time.” -Candice Carty-Williams, author of Queenie A candid exploration of the state of

outrage in our culture, how it debases our civil discourse, and how we can channel it back into the fights that matter, from radio host Ashley "Dotty" Charles. We're living in a post-modern utopia of sorts, where thanks to our resolute predecessors, we've checked a bunch of items off our outrage shopping list. Slavery? Abolished. Apartheid? Not anymore buddy. Women's suffrage? Nailed it. But what do you do when you keep winning your battles? Well, you pick new ones, of course. Ours is a society where many get by on provocation, the tactless but effective tool of peddling outrage--and we all too quickly take the bait. If outrage has become abundant, activism has definitely become subdued. Are we so exhausted from our hashtags that we simply don't have the energy to be outraged in the real world? Or are we simply pretending to be bothered? There is still much to be outraged by in our final frontier--the gender pay gap, racial bias, gun control--but in order to enact change, we must learn to channel our

responses. Passionate, funny and unrelentingly wise, this is the essential guide to living through the age of outrage.

No Point Talking. - Yuvraj Goswami

There is no point talking about it. In fact, there is nothing to talk about. So, what do we have? This is not classical poetry. It is not contemporary either. The words used are simple to mean what they intend. Sentences are easy and sensible. Yet, different poems will to

different people, do different things at different times. The poetry is such that you do to the poem more than what the poetry can. That is the potency and is outrageously crazy. The subject is the objective of this book. There is no point talking about it. It can only Nudge you, point at you, for you to touch your own self. How else is one to do that than in their own way? If in the mood to get high, you may go higher. You do not have to, but you will be aware of how something is happening out of nothing. If open and willing, you will arrive at what's here and now, infinite and ultimate. The whole thing is within, with or without this book. This is a catalyst, or a mirror, or a window, or a game to play. There is no point talking about it, so read!
