**Complete Revision Guide for MRCOG Part 2** - Justin C. Konje 2019-12-17

The examination for Membership of the Royal College of Obstetricians and Gynaecologists (MRCOG) remains one of the most internationally recognised postgraduate examinations in the specialty. Over the years, the examination has evolved in keeping with changes in medical education; the Part 2 examination now consists of two papers made up of Single Best Answer (SBA) questions and Extended Matching Questions (EMQ). This invaluable resource consists of 400 SBA questions (200 in Obstetrics and 200 in Gynaecology), followed by 400 EMQs (200 in Obstetrics and 200 in Gynaecology), grouped into papers, to provide enough material to guide preparations and to give some practice experience of the examination formats. All the questions have answers with explanations and sources of evidence. In preparing for the examination, candidates should make repeated references to these sources of evidence. There is also general advice on how to prepare for the examination and discussion of the reasons why trainees fail the examination.

The book covers a lot of questions from the past Bank exams of various banks.

The Practitioner's Guide to Psychoactive Drugs - Ellen L. Bassuk 2012-12-06

Books, like people, are born, and, if they survive the trauma of birth, mature in response to a changing environment. This volume is no exception. It immediately proved its usefulness to psychiatric clinicians upon its publication six years ago, and it is not surprising to find it now entering a new phase of life in a second edition. The many and significant

changes that the reader will find herein reflect not only the rapid growth of knowledge in the field of psychopharmacology but also the editors' wise awareness of the need to incorporate that knowledge into clinical practice. Important new sections have been added on the management of elderly patients, on the pharmacological approach to those with temporal lobe epilepsy, and on the use of psychoactive medications during pregnancy. The existing clinical sections have been expanded, and the format has been altered to make the volume more practically useful for the harried clinician. Most important of all, the discussions of individual drugs have been carefully revised to update information about those medications that have stood the test of time and to include those newer pharmacological agents that have appeared on the clinical scene since the publication of the first edition. This last task has been significantly aided by the addition of Dr. Alan J. Gelenberg to the family of editors; his clinical and scientific knowledge nicely complements that of Drs. Bassuk and Schoonover, and its influence is evident throughout.

*A User's Guide to Spectral Sequences* - John McCleary 2001

Spectral sequences are among the most elegant and powerful methods of computation in mathematics. This book describes some of the most important examples of spectral sequences and some of their most spectacular applications. The first part treats the algebraic foundations for this sort of homological algebra, starting from informal calculations. The heart of the text is an exposition of the classical examples from homotopy theory, with chapters on the Leray-Serre spectral sequence, the Eilenberg-Moore spectral sequence, the Adams spectral sequence, and, in this new edition, the Bockstein spectral sequence. The last part of the book treats applications throughout mathematics, including the theory of knots and links, algebraic geometry, differential geometry and algebra. This is an excellent reference for students and researchers in geometry, topology, and algebra.

**Practical Guide to Partnerships and LLCs** - Robert Ricketts 2007-02  
Practical Guide to Partnerships and LLCs (3rd Edition), by Robert Ricketts and Larry Tunnell, discusses the complex issues involving partnership taxation with utmost clarity. It uses hundreds of illustrative examples, practice observations, helpful charts and insightful explanations to make even the most difficult concepts understandable. The book reflects the authors' penchant for communicating the pertinent facts in very direct language and creating a context for understanding the multifaceted issues and applying them to practice.

**A Researcher's Guide to Sources on Soviet Social History in the 1930s** - Sheila Fitzpatrick 1990

Soviet and western history researchers present 16 essays on accessing and using a wide variety of sources pertaining to the Stalin era. Topics include archives, annual reports of industries, laws, legal journals, city directories, newspapers and journals, memoirs, and military sources. Appended to particular essays and to the volume as a whole are catalogues of specific documents and publications. Annotation copyrighted by Book News, Inc., Portland, OR
