The Denial of Death - ERNEST. BECKER 2020-03-05

Winner of the Pulitzer prize in 1974 and the culmination of a life's work, The Denial of Death is Ernest Becker's brilliant and impassioned answer to the 'why' of human existence. In bold contrast to the predominant Freudian school of thought, Becker tackles the problem of the vital lie - man's refusal to acknowledge his own mortality. The book argues that human civilisation is a defence against the knowledge that we are mortal beings. Becker states that humans live in both the physical world and a symbolic world of meaning, which is where our 'immortality project' resides. We create in order to become immortal - to become part of something we believe will last forever. In this way we hope to give our lives meaning. In The Denial of Death, Becker sheds new light on the nature of humanity and issues a call to life and its living that still resonates decades after it was written.

In those moments, we are utterly dependent on God for well-timed help. If he doesn't come through, we're finished. For forty years, two million Israelites were in the wilderness, and God fed them supernaturally every morning with manna, teaching people who doubted him he can be trusted with everything they needed to survive. This is a lesson we need to learn too. In personal stories and applications of biblical lessons, Manna reveals how God specializes in making a way where there is no way. He proved it every day to the nation of Israel, never missing a day of being faithful. He was never late, and he was never early. He was always just in time. And he will be for you.
