The Invisible Safety Net - Janet M. Currie 2008-11-10
In one of the most provocative books ever published on America's social welfare system, economist Janet Currie argues that the modern social safety net is under attack. Unlike most books about antipoverty programs, Currie trains her focus not on cash welfare, which accounts for a small and shrinking share of federal expenditures on poor families with children, but on the staples of today's American welfare system: Medicaid, Food Stamps, Head Start, WIC, and public housing. These programs, Currie maintains, form an effective, if largely invisible and haphazard safety net, and yet they are the very programs most vulnerable to political attack and misunderstanding. This book highlights both the importance and the fragility of this safety net, arguing that, while not perfect, it is essential to fighting poverty. Currie demonstrates how America's safety net is threatened by growing budget deficits and by

an erroneous public belief that antipoverty programs for children do not work and are riddled with fraud. By unearthing new empirical data, Currie makes the case that social programs for families with children are actually remarkably effective. She takes her argument one step further by offering specific reforms--detailed in each chapter--for improving these programs even more. The book concludes with an overview of an integrated safety net that would fight poverty more effectively and prevent children from slipping through holes in the net. (For example, Currie recommends the implementation of a benefit "debit card" that would provide benefits with less administrative burden on the recipient.) A complement to books such as Barbara Ehrenreich's bestselling *Nickel and Dimed*, which document the personal struggles of the working poor, *The Invisible Safety Net* provides a big-picture look at the kind of programs and solutions that would help ease those struggles. Comprehensive and authoritative, it will prompt a major reexamination of the current thinking on improving the lives of needy Americans.

Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations for Fiscal Year 2004 - United States. Congress. Senate. Committee on Appropriations. Subcommittee on Departments of Labor, Health and Human Services, Education, and Related Agencies 2003

Authorizations for Head Start, Follow Through, Community Services, and Establish Child Care Information and Referral Services - United States. Congress. House. Committee on Education and Labor. Subcommittee on Human Resources 1985

Services to Indian Head Start Grantees Under a Special Program - United States. General Accounting Office 1976

Field Hearing on Reauthorization of the Head Start Act - United States. Congress. House. Committee on Education and Labor. Subcommittee on Human Resources 1994

These hearing transcripts present testimony concerning the

reauthorization of the Head Start Act taken at the 1994 National Head Start Conference. Much of the testimony was from Head Start administrators concerning the efficacy of specific programs and activities funded by the Head Start Act, particularly those which they would like to see expanded or improved. Presented is testimony by (1) California Representative Matthew Martinez; (2) two Head Start parents; (3) four Head Start regional directors; (4) the president of the South Carolina Head Start Association; (5) two directors of local Head Start programs; (6) two members of the National Migrant Head Start Program; (7) the president of the Indian Head Start Association; (8) the vice-president of the National Head Start Association; (9) the curriculum director of the Early Childhood Professional Development Network; and (10) a member of the Head Start Collaboration Project in Ohio. (MDM)

Resources in Education - 1996

Inspiring Greatness in Education - Edward Zigler Ph.D. 2014-05-05
One of the major domestic policy issues of our time is whether our nation can provide a more effective educational experience for our children. Economists have stressed that the quality of our educational system eventually defines the ability of our workforce, which in turn affects our competitive position in the world market. This issue has earned increasing attention in light of recent reports that students in many nations perform at higher levels of educational competence than children in America's schools. *Inspiring Greatness in Education* describes the 21st Century Schools program (21C), a whole-school reform model developed by Edward Zigler over 20 years ago and since then has been in a constant state of testing, implementation, and scaling up. The goal of 21C is to promote optimal child development, which should become manifest in sound educational performance. In practice, 21C provides preschool education as well as good-quality child care before and during the school years, in combination with a number of other family supports. This book will provide an in-depth case study examination of the experience of the Independence School District in Independence, Missouri. The Independence School District embraced School of the 21st

Century concepts in 1988, becoming the first urban school district in the nation to do so. This book reveals and documents Independence School District's success as a national model for 21C programming, as well as the experiences, testimonials and opinions of parents, students, teachers, administrators and community officials. By focusing on the impetus and history of the 21C concept, its organic evolution and its applications at the Independence School District, this book is designed to inform, educate, and inspire all who read it and to serve as a model for other school districts that want to achieve similar successes.

Critical Perspectives on Project Head Start - Jeanne Ellsworth
1998-09-11

Considers how Project Head Start, the federally funded preschool program, has operated (sometimes effectively and comfortably, sometimes not) with families, in communities, and with other institutions. An important look at the intersections of poverty, social programs, and education.

Writing Grant Proposals in Epidemiology, Preventive Medicine, and Biostatistics - Lisa Chasan-Taber 2022-06-27

Competition for research funds in epidemiology, preventive medicine and biostatistics is highly competitive and at the same time, the grant application and review process at such agencies at the National

Institutes of Health (NIH) has undergone substantial revisions. Writing Grant Proposals in Epidemiology, Preventive Medicine, and Biostatistics, Second Edition targets effective grant proposal writing in this highly competitive and evolving environment. Covering all aspects of the proposal writing process the text, the updated second edition: •Includes new chapters on Fellowship Grants and Career Development Awards designed for graduate students, postdoctoral fellows, and early-career faculty •Provides strategies to highlight the “overall impact” of the grant, one of the most important aspects determining NIH funding in a new chapter on Significance and Innovation •Provides step-by-step guidelines for grant structure and style alongside broader strategies for developing a research funding portfolio •Explains how to avoid common errors and pitfalls, supplying critical dos and don'ts that aid in writing solid grant proposals •Illustrates key concepts with extensive examples from successfully funded proposals Written by an established NIH reviewer with inside knowledge and an impressive track record of funding, Writing Grant Proposals in Epidemiology, Preventive Medicine, and Biostatistics, Second Edition is an essential cookbook of the appropriate ingredients needed to construct a winning grant proposal. The text is not only relevant for early-stage investigators including graduate students, medical students/residents, and postdoctoral fellows, but also valuable for more experienced faculty, clinicians, epidemiologists, and other health professionals who cannot seem to break the barrier to obtain NIH-funded research.

Reauthorizing Head Start - United States. Congress. Senate. Committee on Health, Education, Labor, and Pensions 2004

Catalog of Federal Domestic Assistance - 2014

Identifies and describes specific government assistance opportunities such as loans, grants, counseling, and procurement contracts available under many agencies and programs.

Writing Successful Grant Proposals from the Top Down and Bottom Up - Robert J. Sternberg 2013-04-17

Written by experts with firsthand experience in applying for and getting

grants, this guide shows how to build a successful grant proposal. It provides advice on planning, executing, submitting, and revising grant proposals in order to maximize their chances of success.

Legacies of the War on Poverty - Martha J. Bailey 2013-07-31

Many believe that the War on Poverty, launched by President Johnson in 1964, ended in failure. In 2010, the official poverty rate was 15 percent, almost as high as when the War on Poverty was declared. Historical and contemporary accounts often portray the War on Poverty as a costly experiment that created doubts about the ability of public policies to address complex social problems. *Legacies of the War on Poverty*, drawing from fifty years of empirical evidence, documents that this popular view is too negative. The volume offers a balanced assessment of the War on Poverty that highlights some remarkable policy successes and promises to shift the national conversation on poverty in America. Featuring contributions from leading poverty researchers, *Legacies of the War on Poverty* demonstrates that poverty and racial discrimination would likely have been much greater today if the War on Poverty had not been launched. Chloe Gibbs, Jens Ludwig, and Douglas Miller dispel the notion that the Head Start education program does not work. While its impact on children's test scores fade, the program contributes to participants' long-term educational achievement and, importantly, their earnings growth later in life. Elizabeth Cascio and Sarah Reber show that Title I legislation reduced the school funding gap between poorer and richer states and prompted Southern school districts to desegregate, increasing educational opportunity for African Americans. The volume also examines the significant consequences of income support, housing, and health care programs. Jane Waldfogel shows that without the era's expansion of food stamps and other nutrition programs, the child poverty rate in 2010 would have been three percentage points higher. Kathleen McGarry examines the policies that contributed to a great success of the War on Poverty: the rapid decline in elderly poverty, which fell from 35 percent in 1959 to below 10 percent in 2010. Barbara Wolfe concludes that Medicaid and Community Health Centers contributed to large reductions in infant mortality and increased life expectancy. Katherine

Swartz finds that Medicare and Medicaid increased access to health care among the elderly and reduced the risk that they could not afford care or that obtaining it would bankrupt them and their families. *Legacies of the War on Poverty* demonstrates that well-designed government programs can reduce poverty, racial discrimination, and material hardships. This insightful volume refutes pessimism about the effects of social policies and provides new lessons about what more can be done to improve the lives of the poor.

Children in Poverty - Aletha C. Huston 1994-08-26

Highly original and revealing study of children in poverty, focusing on the child rather than on parents' income or self sufficiency.

Guide for Audits of Head Start Program Grants - United States. Department of Health, Education, and Welfare. Audit Agency 1977

Effective Grant Writing and Program Evaluation for Human Service Professionals - Francis K. O. Yuen 2013-07-29

A state-of-the-art guide for developing grants with a strong emphasis on using program outcome measurement to underscore need and accountability. Based on the authors' many years of experience in the public and nonprofit sectors, *Effective Grant Writing and Program Evaluation for Human Service Professionals* integrates the topics of grant proposal writing and program evaluation, offering grant seekers the practical guidance they need to develop quality proposals, obtain funding, and demonstrate service results and accountability. The authors clearly and succinctly illustrate and describe each stage of the grant writing and evaluation process. Problems or issues that arise frequently are highlighted and followed by specific advice. In addition, numerous real-world examples and exercises are included throughout the book to give readers the opportunity for reflection and practice. This timely reference incorporates a strengths perspective, providing: An inside look at the grant writing and evaluation processes, with insights from experienced grant writers, agency administrators, foundation program managers, and grant reviewers. Specific examples of successful grant proposals and evaluation plans and instruments serving as models for

learning and practice Field-tested individual and group exercises that facilitate the development of grant writing and evaluation skills Discussion of electronic technology in grant writing and evaluation, including writing and submitting grant proposals online, and identifying funding sources This grant writing and program evaluation guide follows a needs-driven, evidence-based, result-oriented, and client-centered perspective. Its authoritative discussion equips human service professionals to effectively develop grants with a strong emphasis on measuring program outcomes.

Head Start Impact - Michael J. Puma 2006

Since its beginning in 1965 as a part of the War on Poverty, Head Start's goal has been to boost the school readiness of low-income children.

Based on a 'whole child' model, the program provides comprehensive services that include pre-school education; medical, dental, and mental health care; nutrition services; and efforts to help parents foster their child's development. Head Start services are designed to be responsive to each child's and family's ethnic, cultural, and linguistic heritage. The Congressionally-mandated Head Start Impact Study was conducted across 84 nationally representative grantee/delegate agencies.

Approximately 5,000 newly entering 3- and 4-year-old children applying for Head Start were randomly assigned to either a Head Start group that had access to Head Start program services or to a non- Head Start group that could enrol in available community non-Head Start services, selected by their parents. Data collection began in fall 2002 and is scheduled to continue through 2006, following children through the spring of their 1st-grade year. The study quantifies the impact of Head Start separately for 3- and 4-year-old children across child cognitive, social-emotional, and health domains as well as ii on parenting practices. This book is essential reading for those in the education field.

A Dictionary of Nonprofit Terms and Concepts - David Horton Smith 2006-11-08

This reference work defines more than 1,200 terms and concepts that have been found useful in past research and theory on the nonprofit sector. The entries reflect the importance of associations, citizen

participation, philanthropy, voluntary action, nonprofit management, volunteer administration, leisure, and political activities of nonprofits. They also reflect a concern for the wider range of useful general concepts in theory and research that bear on the nonprofit sector and its manifestations in the United States and elsewhere. This dictionary supplies some of the necessary foundational work on the road toward a general theory of the nonprofit sector.

Catalog of Federal Domestic Assistance, 1999 - Barry Leonard 1999-06

Contains 1,412 assistance programs administered by 57 Federal agencies in agriculture, crime control, education, employment and training, health and human services, housing and homeownership, and science and technology. Chapters: how to use the catalog; agency summary; agency programs; alpha. index of programs; applicant eligibility; deadlines index; functional index; subject index; deleted and added programs; crosswalk of changes to program numbers and titles; program descriptions: programs requiring executive order 12372 review; authorization appendix; agency addresses; sources of additional info.; and developing and writing grant proposals.

Oversight on the Impact of the Administration's Fiscal 1986 Budget Proposals on Programs Under the Jurisdiction of the Committee of Education and Labor - United States. Congress. House. Committee on Education and Labor 1985

Project Head Start - Valora Washington 1995

Describes the history of the Head Start program. This program was designed as a preschool education program with the potential to erase gaps in the academic performance of poor and middle-class children. It also has provided support for these children with health care, nutritious meals, and social services. Discusses the administration of the program, current status, overview of models and strategies, parental involvement, and an overview of Head Start issues.

Writing Grant Proposals That Win - Deborah Ward 2011-08-24

Writing Grant Proposals That Win, Fourth Edition offers step-by-step

instructions and clear examples of how to write winning grant proposals. It offers practical guidance on how to: ? Express the need for the project. ? Describe objectives and activities. ? Outline an evaluation plan. ? Create a workable project budget. The Fourth Edition is a thorough update with all new charts, graphs, tables, and figures; as well as new examples and coverage of current topics. Students will come away with a clear understanding of how reviewers function and what they are looking for in proposal sections, in addition to what is needed to maximize every aspect of the proposal. The text is loaded with useful tips that will enable your students to hit the ground running, including how to assess a program announcement and ensure each requirement is addressed; condense your entire proposal into a brief but compelling abstract; determine what appendices to include (and in what form) for maximum impact; adequately describe project dissemination and continuation plans; use technology -- including desktop publishing, graphics, color, and spreadsheets for budget development -- to enhance your proposals; and structure your proposal to increase your chance of winning.

Reauthorization of the Community Services Block Grant Program - United States. Congress. Senate. Committee on Health, Education, Labor, and Pensions. Subcommittee on Children and Families 2004

Departments of Labor, Health and Human Services, Education, and Related Agencies Appropriations for 1993 - United States. Congress. House. Committee on Appropriations. Subcommittee on the Departments of Labor, Health and Human Services, Education, and Related Agencies 1992

Community Self-Determination - John J. Laukaitis 2015-09-14
Examines the educational programs American Indians developed to preserve their cultural and ethnic identity, improve their livelihood, and serve the needs of their youth in Chicago. After World War II, American Indians began relocating to urban areas in large numbers, in search of employment. Partly influenced by the Bureau of Indian Affairs, this migration from rural reservations to metropolitan centers presented both

challenges and opportunities. This history examines the educational programs American Indians developed in Chicago and gives particular attention to how the American Indian community chose its own distinct path within and outside of the larger American Indian self-determination movement. In what John J. Laukaitis terms community self-determination, American Indians in Chicago demonstrated considerable agency as they developed their own programs and worked within already existent institutions. The community-based initiatives included youth programs at the American Indian Center and St. Augustine's Center for American Indians, the Native American Committee's Adult Learning Center, Little Big Horn High School, O-Wai-Ya-Wa Elementary School, Native American Educational Services College, and the Institute for Native American Development at Truman College. Community Self-Determination presents the first major examination of these initiatives and programs and provides an understanding of how education functioned as a form of activism for Chicago's American Indian community. [] John Laukaitis has produced an important book on the role of education in the Chicago American Indian community. His meticulous research in a wide array of manuscript collections and extensive oral interviews clearly convey to readers that he knows the city, knows the places, and knows the people. [] Daniel M. Cobb, author of Native Activism in Cold War America: The Struggle for Sovereignty

Methods Matter - Richard J. Murnane 2010-09-17
Educational policy-makers around the world constantly make decisions about how to use scarce resources to improve the education of children. Unfortunately, their decisions are rarely informed by evidence on the consequences of these initiatives in other settings. Nor are decisions typically accompanied by well-formulated plans to evaluate their causal

impacts. As a result, knowledge about what works in different situations has been very slow to accumulate. Over the last several decades, advances in research methodology, administrative record keeping, and statistical software have dramatically increased the potential for researchers to conduct compelling evaluations of the causal impacts of educational interventions, and the number of well-designed studies is growing. Written in clear, concise prose, *Methods Matter: Improving Causal Inference in Educational and Social Science Research* offers essential guidance for those who evaluate educational policies. Using numerous examples of high-quality studies that have evaluated the causal impacts of important educational interventions, the authors go beyond the simple presentation of new analytical methods to discuss the controversies surrounding each study, and provide heuristic explanations that are also broadly accessible. Murnane and Willett offer strong methodological insights on causal inference, while also examining the consequences of a wide variety of educational policies implemented in the U.S. and abroad. Representing a unique contribution to the literature

surrounding educational research, this landmark text will be invaluable for students and researchers in education and public policy, as well as those interested in social science.

Community Nutrition in Action - Marie A. Boyle 2021-02-01

Discover the diverse range of practice settings and opportunities available to you as a community and public health nutritionist with *COMMUNITY NUTRITION IN ACTION*, 8th Edition! The book provides easy-to-understand coverage of program planning, policymaking, and nutrition issues specific to community and public health. Using this innovative book, you'll develop the skills you need to achieve cultural competency, address health disparities, try new technologies, and use fresh approaches to improving the public's nutrition and health status. You'll also master the knowledge and skills you'll need in practice as you seek to solve population health problems, relating to media advocacy, telehealth, nutrition education, and more. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
