Austria-Hungary, Including Dalmatia and Bosnia - Karl Baedeker

2017-11-20
Excerpt from *Austria-Hungary, Including Dalmatia and Bosnia: Handbook for Travellers* Cusrou Honos formalities are now almost everywhere lenient. As a rule, however, articles purchased during the journey, which are not destined for personal use, should be declared at the frontier. At the Austrian frontier playing-cards, almanacks, and sealed letters are liable to confiscation. Tobacco and cigars, the sale of which in Austria is a monopoly of government, are liable to a duty of about 12 K. Per pound. According to the strict rule, one ounce of tobacco and 10 cigars only are exempt from duty. Cycles, see p. Xiv. The keys should be sent along with all luggage forwarded in advance. Defying Doomsday - Tsana Dolichva 2016

Teens form an all-girl band in the face of an impending comet. A woman faces giant spiders to collect silk and protect her family. New friends take their radio show on the road in search of plague survivors. A man seeks love in a fading world. How would you survive the apocalypse? *Defying Doomsday* is an anthology of apocalypse fiction featuring disabled and chronically ill protagonists, proving it's not always the "fittest" who survive - it's the most tenacious, stubborn, enduring and innovative characters who have the best chance of adapting when everything is lost. In stories of fear, hope and survival, this anthology gives new perspectives on the end of the world, from authors Corinne Duyvis, Janet Edwards, Seanan McGuire, Tansy Rayner Roberts, Stephanie Gunn, Elinor Caiman Sands, Rivqa Rafael, Bogi Takács, John Chu, Maree Kimberley, Octavia Cade, Lauren E Mitchell, Thoraiya Dyer, Samantha Rich, and K L Evangelista.

Beiträge Zur Rhein Hessischen Geschichte - Heinrich Bechtolsheimer 1916

Meteorological Measurements and Instrumentation - Giles Harrison 2015-01-20

This book describes the fundamental scientific principles underlying high quality instrumentation used for environmental measurements. It discusses a wide range of in situ sensors employed in practical environmental monitoring and, in particular, those used in surface based measurement systems. It also considers the use of weather balloons to provide a wealth of upper atmosphere data. To illustrate the technologies in use it includes many examples of real atmospheric measurements in typical and unusual circumstances, with a discussion of the electronic signal conditioning, data acquisition considerations and data processing principles necessary for reliable measurements. This also allows the long history of atmospheric measurements to be placed in the context of the requirements of modern climate science, by building the physical science appreciation of the instrumental record and looking forward to new and

emerging sensor and recording technologies.

Review of the American Forces in Germany - James Greenleaf Adams 1921

The Prague Ghetto - Milada Vilímková 1993

To Tell Their Children - Rachel L. Greenblatt 2014-02-26

This book offers an examination of Jewish communal memory in Prague in the century and a half stretching from its position as cosmopolitan capital of the Holy Roman Empire (1583-1611) through Catholic reform and triumphalism in the later seventeenth century, to the eve of its encounter with Enlightenment in the early eighteenth. Rachel Greenblatt approaches the subject through the lens of the community's own stories—stories recovered from close readings of a wide range of documents as well as from gravestones and other treasured objects in which Prague's Jews recorded their history. On the basis of this material, Greenblatt shows how members of this community sought to preserve for future generations their memories of others within the community and the events that they experienced. Throughout, the author seeks to go beyond the debates inspired by Yosef Hayim Yerushalmi's influential *Zakhor: Jewish History and Jewish Memory*, often regarded as the seminal work in the field of Jewish communal memory, by focusing not on whether Jews in a pre-modern community had a historical consciousness, but rather on the ways in which they perceived and preserved their history. In doing this, Greenblatt opens a window onto the roles that local traditions, aesthetic sensibilities, gender, social hierarchies, and political and financial pressures played in the construction of local memories.

The Architecture Machine - Teresa Fankhänel 2020-07-20

Today, it is hard to imagine the everyday work in an architectural practice without computers. Bits and bytes play an important role in the design and presentation of architecture. The book, which is published in the context of an exhibition of the same name of the Architekturmuseum der TUM at the Pinakothek der Moderne in Munich (October 14, 2020 to January 10, 2021), for the first time considers - in depth - the development of the digital in architecture. In four chapters, it recounts this intriguing history from its beginnings in the 1950s through to today and presents the computer as a drawing machine, as a design tool, as a medium for telling stories, and as an interactive communication platform. The basic underlying question is simple: Has the computer changed architecture? And if so, by how much?

When October Starts - Seven Rue 101-01-01

JUNIPER As his student, I should've kept my distance. Out of all the guys in the world I could've fallen in love with, it had to be my new teacher. We fell in love slowly, hidden from others. Keeping it secret, and falling deeper each day. But no love is perfect, and we learned it the hard way. When the truth came out and he left town, he left me broken and alone. He's to blame, at least that's what everyone says. But to me, he's still the greatest man I've ever gotten to love. And when October starts, no one can tear us apart.

The Afterlife - Gary Soto 2005-03-01

A senior at East Fresno High School lives on as a ghost after his brutal murder in the restroom of a club where he had gone to dance.
