farmhouse. "This is Thunder Cake baking weather," calls Grandma, as she and her granddaughter hurry to gather the ingredients around the farm. A real Thunder Cake must reach the oven before the storm arrives. But the list of ingredients is long and not easy to find . . . and the storm is coming closer all the time! Reaching once again into her rich childhood experience, Patricia Polacco tells the memorable story of how her grandma--her Babushka--helped her overcome her fear of thunder when she was a little girl. Ms. Polacco's vivid memories of her grandmother's endearing answer to a child's fear, accompanied by her bright folk-art illustrations, turn a frightening thunderstorm into an adventure and ultimately . . . a celebration! Whether the first clap of thunder finds you buried under the bedcovers or happily anticipating the coming storm, Thunder Cake is a story that will bring new meaning and possibility to the excitement of a thunderstorm.

Lesson Plans - Judson G. Everitt 2017-12-21

In Lesson Plans, Judson G. Everitt takes readers into the everyday worlds of teacher training, and reveals the complexities and dilemmas teacher candidates confront as they learn how to perform a job that many people assume anybody can do. Using rich qualitative data, Everitt analyzes how people make sense of their prospective jobs as teachers, and how their introduction to this profession is shaped by the institutionalized rules and practices of higher education, K-12 education, and gender. Trained to constantly adapt to various contingencies that routinely arise in schools and classrooms, teacher candidates learn that they must continually try to reconcile the competing expectations of their jobs to meet students' needs in an era of accountability. Lesson Plans reveals how institutions shape the ways we produce teachers, and how new teachers make sense of the multiple and complicated demands they face in their efforts to educate students.

The Classroom Chef - John Stevens 2016-03-15

"I just don't get math." If you're a math teacher, you probably can't count the number of times you've heard students, parents, and even fellow teachers make a disparaging statement about your subject. As math teachers and instructional coaches, John Stevens and Matt Vaudrey know how discouraging it feels to look out into a classroom full of disinterested and confused students. But they also know how amazing it feels to see comprehension dawn in their students' eyes - when a concept suddenly makes sense and math becomes meaningful. In *The Classroom Chef*, John and Matt share their secret recipes, ingredients, and tips for serving up lessons that engage students and help them "get" math. You can use these ideas and methods as-is, or better yet, tweak them and create your own enticing educational meals. The message the authors want to convey is that, with imagination and preparation, every teacher can be a Classroom Chef. Far from bland or boring, the lessons and ideas in *The Classroom Chef* spark curiosity-and occasionally bewilderment and awe (yes, in math class). After all, mullets, ziplines, and sharks aren't standard topics for typical math classes. But maybe they should be.

Cook Like a Rock Star - Anne Burrell 2011-10-04

If chefs are the new rock stars, Anne wants you to rock in your own kitchen! For Anne Burrell, a classically trained chef and host of *Food Network's Secrets of a Restaurant Chef* (where she shares impressive recipes and smart techniques that anyone can master), and *Worst Cooks in America* (the show that transforms hopeless home cooks), being a rock star in the kitchen means having the confidence and ability to get a great meal on the table without a sweat. In her debut cookbook, she presents 125 rustic yet elegant recipes, all based on accessible ingredients, along with encouraging notes and handy professional tricks that will help you cook more efficiently at home. With Anne's guidance, even the novice cook can turn out showstoppers like Whole Roasted Fish or Rack of Lamb Crusted with Black Olives, which are special enough for guests but easy enough for a weekday evening. For Piccolini (Little Nibbles), try making Truffled Deviled Eggs, Sausage and Pancetta Stuffed Mushrooms, or Baked Ricotta with Rosemary and Lemon. Delicious first courses include Pumpkin Soup with Allspice Whipped Cream and Garlic Steamed Mussels with Pimentón Aioli. And if you're craving pasta, Chef Anne's Light-as-a-Cloud Gnocchi, Sweet and Spicy Sausage Ragù, or Killer Mac and Cheese with Bacon will blow you away. Whether she's telling you how to use garlic most effectively ("perfume the oil, remove the garlic, and ditch it—it's fulfilled its garlic destiny!") or reaffirming the most important part of cooking (it should have the "sparkle factor!"), you will never feel alone at the stove. Anne's effervescent personality and unmatched vitality will be there every step of the way--as teacher, coach, cooking partner, and friend. Organized from "Piccolini and Firsts" to "Pasta, Seconds, Sides," and, of course, "Dessert" *Cook Like a Rock Star* is all about empowering you with the confidence to own what you do in your kitchen, to be excited by what you're making, and to experience the same kind of joy that Anne feels everyday when she cooks and eats.

Freedom Soup - Tami Charles 2021-02-23

"A Haitian grandmother and granddaughter share a holiday, a family recipe, and a story of freedom. . . . A stunning and necessary historical picture book." —Kirkus Reviews (starred review) The shake-shake of maracas vibrates down to my toes. Ti Gran's feet tap-tap to the rhythm. Every year, Haitians all over the world ring in the new year by eating a special soup, a tradition dating back to the Haitian Revolution. This year,

Ti Gran is teaching Belle how to make Freedom Soup just like she was taught when she was a little girl. Together, they dance and clap as they prepare the holiday feast, and Ti Gran tells Belle about the history of the soup, the history of Belle's family, and the history of Haiti, where Belle's family is from. In this celebration of cultural traditions passed from one generation to the next, Jacqueline Alcántara's lush illustrations bring to life both Belle's story and the story of the Haitian Revolution. Tami Charles's lyrical text, as accessible as it is sensory, makes for a tale that readers will enjoy to the last drop.

Funds of Knowledge - Norma Gonzalez 2006-04-21

The concept of "funds of knowledge" is based on a simple premise: people are competent and have knowledge, and their life experiences have given them that knowledge. The claim in this book is that first-hand research experiences with families allow one to document this competence and knowledge, and that such engagement provides many possibilities for positive pedagogical actions. Drawing from both Vygotskian and neo-sociocultural perspectives in designing a methodology that views the everyday practices of language and action as constructing knowledge, the funds of knowledge approach facilitates a systematic and powerful way to represent communities in terms of the resources they possess and how to harness them for classroom teaching. This book accomplishes three objectives: It gives readers the basic methodology and techniques followed in the contributors' funds of knowledge research; it extends the boundaries of what these researchers have done; and it explores the applications to classroom practice that can result from teachers knowing the communities in which they work. In a time when national educational discourses focus on system reform and wholesale replicability across school sites, this book offers a counter-perspective stating that instruction must be linked to students' lives, and that details of effective pedagogy should be linked to local histories and community contexts. This approach should not be confused with parent participation programs, although that is often a fortuitous consequence of the work described. It is also not an attempt to teach parents "how to do school" although that could certainly be an outcome if the parents so desired. Instead, the funds of knowledge approach attempts to accomplish something that may be even more challenging: to alter the

perceptions of working-class or poor communities by viewing their households primarily in terms of their strengths and resources, their defining pedagogical characteristics. *Funds of Knowledge: Theorizing Practices in Households, Communities, and Classrooms* is a critically important volume for all teachers and teachers-to-be, and for researchers and graduate students of language, culture, and education.
