Rule #1: If at all possible, don't pretend to be something you're not. Specifically, don't play dead. Trust me on this one. I did it, so I should know. Jo O'Connor has spent her whole life moving around. When it comes to new schools, there's not a trick in the book about starting over that Jo doesn't know. But life is about to teach her a new trick: how to disappear entirely. Rule #2: Always expect the Spanish Inquisition, no matter what anyone else does. They have to move again. Now. This very night. Jo knows better than to argue. Her dad is the key witness in a major case against a big-time bad guy. But Jo just can't resist one last visit to the school where she's been so happy. All she wants is to say good-bye. That can't cause any problems, can it? Rule #3: Never assume you can predict the future. Now Jo's one last visit has landed her smack in the middle of a ghost story. Specifically, her own. By the time it's over, she'll have a whole new set of rules about what's real, what's make-believe, and—most of all—what's important.

From the creator of the hit TV series *The Bold Type* comes an empowering and heartfelt novel about a future female president's senior year of high school. Now they're in their senior year, facing their biggest fears about growing up and growing apart. But there's more than just college on the horizon. One of these girls is destined to become the president of the United States. The mystery, of course, is which girl

gets the gig. Is it Ava, the picture-perfect artist who's secretly struggling to figure out where she belongs? Or could it be CJ, the one who's got everything figured out...except how to fix her terrible SAT scores? Maybe it's Jordan, the group's resident journalist, who knows she's ready for more than their small Ohio suburb can offer. And don't overlook Martha, who will have to overcome all the obstacles that stand in the way of her dreams. This is the story of four best friends who have one another's backs through every new love, breakup, stumble, and success--proving that great friendships can help young women achieve anything...even a seat in the Oval Office.

**Kind of Sort of Fine** - Spencer Hall 2021-06-22

Senior year changes everything for two teens in this poignant, funny coming-of-age story that looks at what happens when the image everyone has of us no longer matches who we really are. Senior year of high school is full of changes. For Hayley Mills, these changes aren't exactly welcome. All she wants is for everyone to forget about her very public breakdown and remember her as the overachiever she once was—and who she's determined to be again. But it's difficult to be seen as a go-getter when she's forced into TV Production class with all the slackers like Lewis Holbrook. For Lewis, though, this is going to be his year. After a summer spent binging 80s movies, he's ready to upgrade from the role of self-described fat, funny sidekick to leading man of his own life—including getting the girl. The only thing standing in his way is, well, himself. When the two are partnered up in class, neither is particularly thrilled. But then they start making mini documentaries about their classmates' hidden talents, and suddenly Hayley is getting attention for something other than her breakdown, and Lewis isn't just a background character anymore. It seems like they're both finally getting what they want—except what happens when who you've become isn't who you really are?

*High School Musical 3 Senior Year* - Modern Publishing 2008-09-15

[My Senior Year](#) - Michael Fitzgibbons 2000-12

Hey! I'm John Sullivan, a recent high school graduate who collected his thoughts and dreams and hopes and fears and all kinds of other stuff in a year-long diary through his senior year. When I finished on graduation day, I realized I had quite a collection, as a matter of fact, I had more than 400 pages! So I thought about it and realized that it had a beginning, a middle, and an end, so therefore it told a complete story, which I think might be a book if I remember my sophomore literature class correctly. I am NOT saying it is literature (ha-ha), but I do think it is a book. That is where you come in. I don't think it is much of a book if I'm the only one who reads it. It is just a diary then, that will remain on the floppy disk in my computer desk in my bedroom. Instead, you could read it. And tell me what you think. And then I will know if I should have left it in that computer desk. Or not. If you do read it, you'll find that I didn't leave anything out, even the stuff that might embarrass me. I could even still get into some trouble about some of it, but I think I'm ok because I don't think my parents will want to read it because they were there for almost all of it, so it would be a rerun for them. I don't think reruns are bad, but they already lived through this once, so they probably don't want to get all upset all over again. So, go ahead and click away. It was an adventure for me - come on along for the ride! John Sullivan is right. This is quite an undertaking for a senior in high school. But that is what it is - a diary, a coming of age novel, a satire, and, incredibly, a love story. It is a unique look at one of the most important developmental periods in a person's life.

[Maria Who?](#) - Francine Pascal 1999

**Crossing the Stage** - Nancy Faust Sizer 2002

school seniors. Senior year is harder than most of us remember, yet the author sees this period as an opportunity.
