Getting involved with the ranch owner is a bad idea, but Roe's and Travis's bedroom kinks line up against one another like a pair of custom-cut rails. As long as they're both clear this is sex on the side, no relationship, no interfering with the job, they could make it work. Shut out by his family years ago, Roe survived by steadfastly refusing to settle into so much as a post office box. As his affair with Travis grows into more than just sex, Roe's past catches up with him, threatening the thin ray of happiness he's found, reminding him it's well past time he went on his way. But even a loner gets lonely, and at this point, there's nowhere left to run. The shame and sorrow of what he's lost will stay with Roe wherever he goes—until he's ready to let love lead him home. This novel has been previously published and has been revised from its original release.

The Perversion of Normality - Kerry Bolton
2021-07-12

In The Perversion of Normality, with full and reliable documentation, Kerry Bolton examines the anti-life character of the 'progressive' era. While arising from an historical process, certain movements and ideologies have been deliberately constructed to take advantage of the West's social decay to create a brave new world. Some people flourish amidst decay, and among those are a global oligarchy and the dysfunctional types the former promotes in the name of 'human rights', 'social justice', and 'equality'. The main obstacles to their 'new world order' are what they call the 'primary ties': the traditional family bond, faith, homeland, culture and ethnicity. In order to eliminate these, there is a well-financed assault, using feminism, identity politics, transgenderism, population control, sexology, 'human relations training', ad infinitum. Of particular service have been the social sciences, including what is called 'Cultural Marxism'. Turning normality on its head, what was until recently regarded as aberrant is now the 'new normal'. The final aim is to create a one-world state populated by 'transhuman', 'postgender' cybernetic drones in a scenario reminiscent of the most bizarre science-fiction film.
